Peacebuilding and Ex-Combatants Johanna Söderström, 2014-12-17 The book examines how ex combatants in post war and peacebuilding settings engage in politics as seen in the case of Liberia The political mobilization of former combatants after war is often perceived as a threat ultimately undermining the security and stability of the state This book questions this simplified view and argues that understanding the political voice of former combatants is imperative Their post war role is not black and white they are not just bad or good citizens but rather engage in multiple political roles spoilers victims disengaged beneficiaries as well as motivated and active citizens By looking at the political attitudes and values of former combatants and their understanding of how politics functions the book sheds new light on the political reintegration
