Successful Branding Antje Walliser,2006-01-19 Inhaltsangabe Abstract In a highly competitive business world differentiation is an essential key to success for companies Branding has been a long discussed method to create such a necessary competitive advantage however an effective and smart branding approach is necessary to ensure success as the quote of Richard Branson shows The American company Persona International offering consulting tools and methodologies to their licensees recognizes the importance of branding to stay ahead of competitors Thus it was decided to launch a branding initiative The branding strategy Managing the Customer Experience by Smith and Wheeler was chosen by Persona which is also sold in form of a tool designed by Shaun Smith called Customer Experience Management CEM The idea behind this theory is to establish and reinforce a brand by offering the customer an unforgettable experience with the product or service of the company Consequently the brand promise is developed on basis of the customer expectations As for Persona two kinds of customers exist one being their direct partners and the other being the clients of the partners who are the end users of the tools It was decided that the branding initiative should be focused on the partners first as they are mostly also aware of the needs and expectations of their clients However the expectations of some end users were to be explored by surveys to round

up the view on the customer expectations Is the Customer Experience Management CEM theory an optimized approach to branding or can any issues be identified which could be improved How could any highlighted shortcomings be overcome The following work examines these questions closer and analyzes them by means of literature and a critical examination in order to find responses and solutions for the posed questions The link to the business world is established through the empirical testing of the brand development phase Hereby a part of the CEM theory is applied and expert interviews and end user surveys are conducted The aim of the critical evaluation of the branding strategy of Smith and Wheeler is to validate the branding approach and to find suggestions for possible improvements of the CEM theory and by testing one suggestion to facilitate the implementation of an optimized branding strategy for Persona Having set the aim of this thesis the second chapter gives an introduction to branding in order to equip the reader with a **DOT Graphic Standards Manual** United States.
