

The image features the silhouettes of four people in the foreground, their arms raised in a celebratory gesture with fists clenched. They are positioned against a bright, hazy background that appears to be a city skyline at sunset or sunrise. The sun is low on the left, creating a strong lens flare and illuminating the scene with a warm, golden light. The city buildings are visible in the distance, their forms softened by the atmospheric haze. The overall mood is one of triumph and teamwork.

Ask 110 top female executives from five nations to reflect on their careers and leadership as part of an international scientific study and you will uncover a set of recommendations for women who want to become and remain international business leaders. There is also invaluable advice for corporate managers wanting to recruit skilled women into executive positions. This book is based on the authentic experiences and original words of the interviewees, all of whom are senior female executives, and on the author's analytical insights, all set within a qualitative scientific framework. In this international research project, the Global Women Career Lab, the author analyzes what motivates these fascinating role models, how they plan their career trajectories, what mechanisms they use to overcome obstacles, and what leadership strategies have enabled these women to reach senior management positions. The book offers the reader a remarkable insight into the experiences of women in top business positions in Russia, China, Japan, France, and Germany. About the author: Dr. Bettina Al-Sadik-Lowinski is a researcher, author, and certified international mentor/coach (MCC). Following a long management career in multinational companies, she has worked as an international executive coach and expert on diversity in Germany, France, Japan, and China.
