Epistemology and Method in Law Geoffrey Samuel, 2016-12-05 This book seeks to question the widely held assumption in Europe that to have knowledge of law is simply to have knowledge of rules There is a knowledge dimension beyond the symbolic which reaches right into the way facts are perceived constructed and deconstructed In support of this thesis the book examines generally the question of what it is to have knowledge of law and this examination embraces not just the conceptual foundations methods taxonomy and theories used by jurists It also examines the epistemological schemes used by social scientists in general in order to show that such schemes are closely related to the schemes of intelligibility used by lawyers and judges *Catalog of Copyright Entries.
