Salberg, 2011-01-19 In the relational literature the subject of termination the ending of an analysis has received scant attention and traditional Freudian or ego psychological criteria are not always enough to assess the readiness to terminate therapy in the coconstructed intersubjective analytic relationship Good Enough Endings seeks to remedy this gap bringing together contributions from contemporary relational thinkers while at the same time engaging with ideas from other psychoanalytic perspectives Topics given consideration include Can there be a relational criteria or paradigm for termination and what would it include How do treatment goals of the analyst and or that of the patient affect the decision to terminate How do recent developments in attachment theory and research influence the preparation to end analysis What occurs for the patient after termination and how do we assess the need for follow up Integrating elements of existing psychoanalytic theory with the fruits of the relational turn Good Enough Endings expands and expounds upon the relational considerations in ending analysis providing a resource for reflection and insight into the final and perhaps most difficult aspect of psychoanalytic treatment **Post-Object Fandom** Rebecca Williams, 2016-07-28 Fandom is generally viewed as an integral part of everyday life which impacts upon how we form emotional bonds with ourselves and others in a modern mediated world Whilst it is inevitable for television series to draw to a close the reactions of fans have rarely been considered Williams explores this everyday occurrence through close analysis of television fans to examine how they respond to discuss and work through their feelings when shows finish airing Through a range of case studies including The West Wing NBC 2000 2006 Lost ABC 2004 2010 Buffy the Vampire Slayer 1997 2003 Doctor Who BBC 1963 1989 2005 The X Files FOX 1993 2002 Firefly FOX 2002 and Sex and the City HBO 1998 2004 Williams considers how fans prepare for the final episodes of shows how they talk about this experience with fellow fans and how through re viewing discussion and other fan practices they seek to maintain their fandom after the show s cessation *Moving On* Della Galton, 2012-01-05 You are writing and selling short stories but you want to take the next step and write a novel Della Galton author of the successful writing guide How To Write and Sell Short Stories shows you how to make the leap in this step by step guide Using examples from her own successful career as writer of hundreds of published short stories and two novels Della shows the critical differences between developing character plot and setting in short and long fiction The essential book to help take your writing to the next level

How James Joyce Made His Name: Roberto Harari, 2002-07-17. In this lucid and compelling analysis of Lacan's twenty-third seminar, *Le Sinthome*, Roberto Harari points to new psychoanalytic pathways that lead beyond Freudian oedipal dynamics. Lacan's seminar measures the boundaries between creativity and neurosis. We learn how poetry and wordplay may offer alternatives to neurotic pain and even psychotic delusions with Joyce as our subject. This new translation makes the intricacies of Lacan's seminar available to the English-speaking world for the first time. The author's accessible, vigorous prose explains the nuances of Lacanian theory with perfect clarity. In the extraordinary encounter between Lacan and Joyce, Harari reveals unexpected affinities between them both as theorists and writers. It illustrates how literature is the aesthetic domain that is closest to the analytic experience.
