Unfinished Synthesis Niles Eldredge, 1985-11-21 This study provides a stimulating critique of contemporary evolutionary thought analyzing the Modern Synthesis first developed by Theodosius Dobzhansky Ernst Mayr and George Gaylord Simpson The author argues that although only genes and organisms are taken as historic individuals in conventional

theory species higher taxa and ecological entities such as populations and communities should also be construed as individuals an approach that yields the ecological and genealogical hierarchies that interact to produce evolution This clearly stated controversial work will provoke much debate among evolutionary biologists systematists paleontologists and ecologists as well as a wide range of educated lay readers **Armageddon Films FAQ** Dale Sherman,2013-10-01 FAQ

Bokuru Jon C. Hall,2005-06-28 This book was inspired by the tenacious efforts of the handful of professional field archaeologists over the last few decades in the inhospitable barrens of Africa Their discoveries of the ancient fossil records have advanced our knowledge back millions of years Bokuru is an archaeological mystery based in a remote region of East Africa The story is seen through James Henderson a young Chicago attorney who is retained to go to Africa to investigate the

mysterious death of Dr Richard Bronston The world famous archaeologist died at his remote excavation site Dr Bronstons daughter Nancy an executive officer at the Chicago museum is responsible for Jims selection to act as detective in spite of his lack of directly related experience Neither Nancy nor the museum staff believe Dr Bronston committed suicide as stated on the death certificate sent from Africa Is Jims limited experience as an amateur archaeologist and trial preparation attorney sufficient to solve the puzzle The museum has sponsored Dr Bronstons excavation work and holds a million dollar life insurance policy to cover their funding The policy excludes coverage if his death is suicide On the way to the airport Jim learns that the cause of Dr Bronstons death is not their only concern Dr Bronston told no one what he found at his excavation The museum must decide whether Nancy Bronston should complete her fathers field work or close the field camp Jims assignment is suddenly expanded He must learn what was found along the ancient bank of the Bokuru River at the location the natives call the place of the ancient past Jim flies to Africa where Nancy Bronston has preceded him to attend her fathers funeral He begins his African adventure unprepared for the twists and turns he will face on a journey into both modern and ancient death as well as the origins of mankind The story ends with a surprise ending not even he could anticipate

Asteroids, Comets, and Meteorites Jon

Erickson,2014-05-14 Looks at asteroids comets and meteorites including what they are how they are formed how they have affected the history of Earth and definitions of related terms Lunar Meteoroid Impacts and How to Observe Them Brian Cudnik,2010-03-10 The genesis of modern searches for observable meteoritic phenomena on the Moon is the paper by Lincoln La Paz in Popular Astronomy magazine in 1938 In it he argued that the absence of observed fashes of meteoritic impacts on the Moon might be interpreted to mean that these bodies are destroyed as luminous meteors in an extremely rarefed lunar atmosphere The paper suggested the possibility of systematic searches for such possible lunar meteors With these concepts in mind I was surprised to note a transient moving bright speck on the Moon on July 10 1941 It appeared to behave very much as a lunar meteor would except that the poorly estimated duration would lead to a strongly hyperbolic heliocentric velocity Thus the idea of systematic searches for both p sible lunar meteors and meteoritic impact fashes was born It was appreciated that much time might need to be expended to achieve any positive results Systematic searches were carried out by others and myself chiefly in the years 1945 1965 and became a regular program at the newly founded Association of Lunar and Planetary Observers or ALPO *It Happened in Alabama* Jackie Sheckler Finch,2011-05-03 This book offers an inside look at over 25 interesting and unusual episodes that shaped the history of the Cotton State *The Anker-Holth Ether Pressure and Atomic Volume Theories* S.
