Suffragettes International The World Wide Campaign For Womens Rights Library Of The 20th Century:

Suffragettes International Trevor Owen Lloyd,1971 *Women and the Vote* Jad Adams,2014-09-18 Before 1893 no woman anywhere in the world had the vote in a national election A hundred years later almost all countries had enfranchised women and it was a sign of backwardness not to have done so This is the story of how this momentous change came about The first genuinely global history of women and the vote it takes the story of women in politics from the earliest times to the present day revealing startling new connections across time and national boundaries from Europe and North America to Asia Africa Latin America and the Muslim world post 9 11 A story of individuals as well as of wider movements it includes the often dramatic life stories of women s suffrage pioneers from across the world painting vivid biographical portraits of everyone from Susan B Anthony and the Pankhursts to hitherto lesser known activists in China Latin America and Africa It is also the first major post feminist history of women s struggle for the vote Controversially Jad Adams rejects the widely accepted idea that success was primarily a result of the pressure group politics of the suffragists and their supporters Ultimately he argues it was nationalism not feminism that was the most important factor in winning women the vote

Women of Ideas Dale Spender,2024-11-20 Originally published in 1982 with characteristic energy humour and learning Dale Spender traces three hundred years of women s ideas She uncovers not only the ways and words of women but the methods of men While men control knowledge she argues they are in a position to take women s ideas If they like them they use them if they don t they lose them Every fifty years women are required to reinvent the wheel for every generation of women is initiated into a world in which women s traditions have been denied and buried Providing convincing evidence that women s absence from the record as creative intellectual beings is not women s fault but men s Dale Spender claims at least 150 women from the past and suggests how such erasure can be avoided in the future Given that men take what they want from women s ideas Dale Spender advocates that women withdraw their labour that they go on a knowledge strike for if women cannot control the knowledge they produce at least they can ensure that it cannot be used as evidence against them Exposing the inadequacies of much modern male scholarship the author provides the readers with the opportunity to share in her own discoveries excitement and mistakes in the process of researching and writing this book The result is that *Women of Ideas And What Men Have Done to Them* is an ambitious and provocative book which will be used as a reference for many years to come and which is also from beginning to end a stimulating read Black Bloc, White Riot A.
