Site Buildings And Spaces:

Toward a Comprehensive Landscape Plan for Washington, D.C. Wallace, McHarg, Roberts, and Todd, United States. National Capital Planning Commission, 1967

A Green Vitruvius Vivienne Brophy, J Owen Lewis, 2012-06-25 2000 years ago the roman architect Marcus Vitruvius Pollio wrote the ten books on architecture establishing the concept of the pattern book offering design principles and solutions that is still referred to in every architect's education A Green Vitruvius is intended as a green pattern book for today Now fully updated this well established textbook provides advice suitable for undergraduate and post graduate students on the integration of sustainable practice into the design and construction process the issues to be considered the strategies to be adopted the elements of green design and design evaluation within the process Classic design elegance is found in the holistic clear solution *Sites for Public Buildings at Huntington, W.Va., Omaha, Neb., and Portland, Ore. Hearings ... Subcom. on Public Buildings and Grounds ... on H.R. 3506, 4836, 4967* United States. Congress. House. Committee on Public Works, 1948

Space and Time in Mediterranean Prehistory Stella Souvatzi, Athena Hadji, 2013-10-15 Space and Time in Mediterranean Prehistory addresses these two concepts as interrelated rather than as separate categories and as a means for understanding past social relations at different scales The need for this volume was realised through four main observations the ever growing interest in space and spatiality across the social sciences the comparative theoretical and methodological neglect of time and temporality the lack in the existing literature of an explicit and balanced focus on both space and time and the large amount of new information coming from prehistoric Mediterranean It focuses on the active and interactive role of space and time in the production of any social environment drawing equally on contemporary theory and on case studies from Mediterranean prehistory Space and Time in Mediterranean Prehistory seeks to break down the space time continuum often assumed rather than inferred into space time units and to uncover the varying and variable interrelations of space and time in prehistoric societies across the Mediterranean The volume is a response to the dissatisfaction with traditional views of space and time in prehistory and revisits these concepts to develop a timely integrative conceptual and analytical framework for the study of space and time in archaeology

Space through Play Gregor Mews, 2022-04-21 This book provides an empirical analysis of the concept of play as a form of spatial practice in urban public spaces The introduced City Play Framework CPF is a practical urban analysis tool that allows urban designers landscape architects and researchers to develop a shared awareness when opening up this window of possibility for adventure Two case studies substantiate and illustrate the development process and testing of the framework in Canberra Australia and Potsdam Germany The appropriation of public spaces that transcend boundaries can facilitate an intrinsic connection between people and their immediate environment towards a more joyful ontological state of human existence in which imagination co creation and a sense of agency are key elements of the design approach The framework presents an alternative understanding of public spaces and public life reflecting on theory and its implications for practice in a post pandemic world in dense urban centres A bridge between theory and practice this book explores possibilities on what future design ought to be when openness and ambiguity are consciously integrated parts of practice and process The book presents a valuable discussion on public space and play for academic audiences across a wide range of disciplines such as landscape architecture urban design planning architecture and urban sociology which is informative for future practice
