Situations And Individuals:

The Oxford Handbook of Psychological Situations John F. Rauthmann, Ryne Sherman, David Charles Funder, 2020

Situations matter. They let people express their personalities and values, provoke motivations, emotions, and behaviors, and are the contexts in which people reason and act. The psychological assessment of situations is a new and rapidly developing area of research, particularly within the fields of personality and social psychology. This volume compiles state-of-the-art knowledge on psychological situations in chapters written by experts in their respective research areas. The motivation of compulsive behavior from addictions such as drugs, gambling, Internet gaming, and obsessive exercise is also considered, providing a truly comprehensive overview of biological, psychological, and environmental sources of motivation.
