the Child Theresa R. Richardson,1989-01-01 In this book Richardson crosses disciplinary boundaries to examine mental hygiene issues of contemporary concern in both the United States and Canada The work juxtaposes a social history of the child in the twentieth century to shifts in private and public power as influenced by the mental hygiene movements in both countries The author shows how the historical record sheds light on current policy concerned with mentally emotionally and educationally handicapped children As a sociology of mental illness the book examines the relationship between mental hygiene as a form of knowledge and the social institutions that fostered the use of psychiatric perspectives concerning child and family life Significant topics covered in this regard include the history of early childhood and parent education the origins of child psychiatry in treating juvenile delinquency and the evolution of contemporary concepts of normal development Philanthropy and the Black Church Rodney M. of Grace addresses the concept of community as an avenue to a deeper relationship with God Using an ecumenical Wesleyan approach Duggins explores the concept of God as community to conclude that bringing people together in almost any setting allows them to grow in God s image He frames this idea using the historical concept of the means of grace the ordinary ways in which people encounter God Drawing heavily on the work of the Missional Wisdom Foundation Duggins begins with a reflection on the community building aspects of traditional church He then uses storytelling to introduce four common forms of community community through work community through food community through children s schools and activities and community through shared recreational activities Together is intended to help Christian people embrace the freedom to experiment with alternative forms of Christian community Duggins nudges the missional imagination of people who long for spiritual connection and growth but for whom traditional church is not the answer Using a yes and approach he shows that traditional church can empower and stand alongside new forms of community each of which can act as a means of grace
