Special Access Required Hank Prunckun,1990 Professional Service Award for Most Significant Contribution to the Literature of Law Enforcement Intelligence International Association of Law Enforcement Intelligence Analysts a boon to anyone involved in research in this field Marilyn B Peterson International Association of Law Enforcement Intelligence Analysts INTELLIGENCE AND PRIVATE INVESTIGATION Hank Prunckun,2013-07-01 While many books have been written about private investigation this text is different in that it does not deal with the subject from traditional perspectives It examines how private investigation has grown particularly since 9 11 into an exacting and sophisticated occupation The book looks at the key issues in what it describes as private intelligence that is intelligence activities practiced by operatives other than law enforcement national security or the military Eleven world experts contribute chapters addressing key practice issues concerning the skills abilities and knowledge necessary in the new realm of private intelligence The initial three chapters provide a report on present day private intelligence and offer an overview of the specifics of intelligence issues that follow Eleven subsequent chapters take the reader progressively through various intelligence related subjects Major topics presented include skills for intelligence led private investigators open source intelligence target profiling fraud intelligence political intelligence anti terrorist and anti gang intelligence illicit organizations and financial intelligence counterintelligence clandestine communication methods preparing a prosecution brief legal issues for intelligence led private investigators and ethical issues for intelligence led private investigators Additionally the text contains several features that will appeal to both students and instructors These include a set of key terms and phrases a number of study questions and learning activities in each chapter Written in a clear and concise style the text provides a foundation of practical and useful information It will be a most important and unique resource for undergraduate students in private investigation courses as well as intelligence practitioners and general readers interested in self development study **Handbook of Scientific Methods of Inquiry for Intelligence Analysis** Hank Prunckun,2010-03-19 With the exponential growth in the intelligence field in the last few years the profession has grown much larger and its mission more complex Government and private sector security agencies have recruited intelligence analysts to process what has become a voluminous amount of raw information flowing into these agencies data collection systems Unfortunately there is an unmet need for analysts who are able to process these data For this reason there are a growing number of colleges and universities that offer intelligence training so that candidates for analyst positions can take up their duties without protracted on the job instruction Handbook of Scientific Methods of Inquiry for Intelligence Analysis offers students in such courses a way of gaining the analytic skills essential to undertake intelligence work This book acquaints students and analysts with how intelligence fits into the larger research framework It covers not only the essentials of applied research but also explains the function structure and operational methods specifically involved in intelligence work It looks at how analysts work with classified information in a security

conscious environment as well as obtaining data via covert methods Students are left with little doubt about what intelligence is and how it is developed using scientific methods of inquiry

Scientific Methods of Inquiry for Intelligence Analysis Hank Prunckun, 2014-09-08 Since 9 11 the needs of intelligence agencies as well as the missions they conduct have increased in number size and complexity As such government and private security agencies are recruiting staff to analyze the vast amount of data collected in these missions This textbook offers a way of gaining the analytic skills essential to undertake intelligence work It acquaints students and analysts with how intelligence fits into the larger research framework It covers not only the essentials of applied research but also the function structure and operational methods specifically involved in intelligence work It looks at how analysts work with classified information in a security conscious environment as well as obtain data via covert methods Students are left with little doubt about what intelligence is and how it is developed using scientific methods of inquiry This revised edition of the popular text has been expanded and updated significantly

Strategic Intelligence Don McDowell, 2008-12-24 The revised edition of Strategic Intelligence A Handbook for Practitioners Managers and Users is a primer for analysts involved in conducting strategic intelligence research Author Don McDowell begins with an overview of what strategic intelligence and analysis is the functions it performs and outcomes it delivers McDowell then outlines a proven methodological approach to planning and implementing a strategic research project useful in any setting whatsoever Strategic Intelligence explains in detail the steps involved in doing strategic analysis and includes examples guidelines and standards to further illustrate the process Each step in the process corresponds with a chapter in the book describing the doctrine and or theory appropriate as well as applications of the theory and practical hints on its implementation Additionally holistic and creative thinking about the problem issues being tackled is stressed in order to avoid narrow biased analysis

Counterintelligence Theory and Practice Hank Prunckun, 2019-01-21 In this thoroughly updated and revised edition of Counterintelligence Theory and Practice Hank Prunckun provides all of the elements required for a successful counterintelligence operation from both an academic and a practitioner s point of view It offers an advanced understanding of the underlying theory that supports the art and science of the craft and examines the challenges and practicalities of defensive and offensive counterintelligence Designed for students in intelligence studies as well as professional training classes this text explores issues related to national security military law enforcement and corporate as well as private affairs

How to Undertake Surveillance & Reconnaissance Henry Prunckun, 2015-05-30 This comprehensive primer explains how to conduct your own recon operations covering tactics equipment and counter reconnaissance How to Undertake Surveillance and Reconnaissance offers a detailed overview of surveillance and reconnaissance work In doing so it shows readers how to employ the unique trade craft in order to help you plan and carry out your own recon missions Author and former government intelligence worker Dr Henry Prunckun explains the background of surveillance and reconnaissance why they are necessary and how they can be effectively employed He also covers the

essential equipment and training necessary to carry out a successful mission Readers also learn how to counter opposing reconnaissance efforts Each chapter of this well referenced and thoroughly indexed book contains a list of key words and phrases study questions and a few learning activities that will assist you with your study **THE ART OF RECONNAISSANCE: With Analytic Annotations** Henry Prunckun,2019 Prunckun s analytically annotated edition of Henderson s 1914 The Art of Reconnaissance shows that not only is the art that then Major General Sir David Henderson espoused over a century ago still relevant today but his scientific way of thinking has been incorporated into different aspects of present day intelligence gathering **Military Intelligence** ,1990 American Military History Daniel K. Blewett,2008-12-30 In this companion volume to his 1995 bibliography of the same title Daniel Blewett continues his foray into the vast literature of military studies As did its predecessor it covers land air and naval forces primarily but not exclusively from a U S perspective with the welcome emergence of small wars from publishing obscurity In addition to identifying relevant organizations and associations Blewett has gathered together the very best in chronologies bibliographies biographical dictionaries indexes journals abstracts glossaries and encyclopedias each accompanied by a brief descriptive annotation This work remains a pertinent addition to the general reference collections of public and academic libraries as well as special libraries government documents collections military and intelligence agency libraries and historical societies and museums
