Pamphlet ,1966 Rockets : an educator's guide with activities in science, mathematics, and technology. Deborah A. Shearer,2008 This guide provides teachers and students many opportunities Chapters within the guide present the history of rocketry National Aeronautics and Space Administration s NASA s 21st Century Space Exploration Policy rocketry principles and practical rocketry These topics lay the foundation for what follows a wealth of dynamic rocket science classroom activities that work The activities focus on Sir Isaac Newton s laws of motion and how they apply to rockets They incorporate cooperative learning problem solving critical thinking and hands on involvement They support national and state standards for science mathematics and technology across many grade levels All of the activities are designed with the classroom in mind They include clear descriptions background information for the teacher and student detailed procedures and tips lists of readily available materials assessments questions for discussion and extensions The activities are designed to foster excitement and a passion for learning It has been created as a two to six week classroom unit depending upon the grade level of the students but individual activities can be extracted and used as stand alone classroom experiences Teachers will find activity objectives and principles clearly stated along with the vocabulary terms necessary for understanding the principles involved The original Rockets Teacher Guide was published by NASA s Education Division in the mid 1990s **The**

Principalship Lawrence F. Rossow,Linda Sue Warner,2000 In this book Rossow and Warner incorporate the best of all the advances in the theories and developments in the field on study devoted to the principalship since 1990 Although the titles to the eleven chapters remain the same as those found in the first edition much has changed Since many areas addressed in the first edition are nearly timeless some topics are presented again One of the basic premises in the first edition came from a clear change in the direction the principalship was taking in the late 1980s and early 1990s There was a movement away from principal as manager of people and a building to principal as instructional leader Unlike a number of movements in education which turn out to be merely fads there has been no change in this direction for principalship The literature and the training for future principals continues to capture the concept that principals must be instructional leaders while attending to the safety of students and teachers This book will assist those responsible for the education of principals as well as help those already in the field become updated on the newest advances in the discipline **Finding Corporate Resources** Gayle Jasso,1996-03-28 Practical and user friendly this volume offers guidance to schools and school districts regarding 12 kinds of resources including money that corporations and local businesses can make available to the community in the United States The author discusses the pros and cons of acquiring and using each resource and explains how to forge lasting working relationships with the corporations to foster future contributions
