

The Problem with Invasive Species

Copyright © 2010 James H. Streeter

The presence of aquatic and terrestrial invasive species poses several concerns such as:

- loss of native species
- alteration of habitats,
- over-exploitation of resources
- competition for ecological niches

Faust,2021-07-15 In 2018 three species of birds went extinct These species are gone forever and many more species of plants and animals are in danger of going extinct every year Scientists estimate that almost half of the species on Earth could be extinct by 2050 This volume looks at the issue of endangered species and the impact that human activity has on the many plants and animals that share our planet Colorful photographs primary sources and helpful graphics illustrate the conservation efforts made by scientists and lawmakers around the world This book will encourage your young readers to take an active role in solving this problem **Myth of Universal Human Rights** David N. Stamos,2015-11-17 In this groundbreaking and provocative new

book philosopher of science David N Stamos challenges the current conceptions of human rights and argues that the existence of universal human rights is a modern myth Using an evolutionary analysis to support his claims Stamos traces the origin of the myth from the English Levellers of 1640s London to our modern day Theoretical defenses of the belief in human rights are critically examined including defenses of nonconsensus concepts In the final chapter Stamos develops a method of naturalized normative ethics which he then applies to topics routinely dealt with in terms of human rights In all of this Stamos hopes to show that there is a better way of dealing with matters of ethics and justice a way that involves applying the whole of our evolved moral being rather than only parts of it and that is fiction free **Natural Kinds and Conceptual**

Change Joseph LaPorte,2003-12-08 According to the received tradition the language used to to refer to natural kinds in scientific discourse remains stable even as theories about these kinds are refined In this illuminating book Joseph LaPorte argues that scientists do not discover that sentences about natural kinds like Whales are mammals not fish are true rather than false Instead scientists find that these sentences were vague in the language of earlier speakers and they refine the meanings of the relevant natural kind terms to make the sentences true Hence scientists change the meaning of these terms This conclusions prompts LaPorte to examine the consequences of this change in meaning for the issue of incommensurability and for the progress of science This book will appeal to students and professional in the philosophy of
