Spectre Of Comparisons:

The Spectre of Comparisons Benedict Anderson, 1998-09-17 The Spectre of Comparisons contains important theoretical and historical considerations about the nature of nationalism the prospects for the Left in the so called New World Disorder

The Spectre of Comparisons Benedict Richard O'Gorman Anderson, 1998 A controversial collection from the author of the celebrated *Imagined Communities* While Benedict Anderson is best known for his classic book on nationalism *Imagined Communities* many of his most telling and incisive interventions have been made in his essays Those collected in this new book span a range of subjects from Aquino's Philippines where the horses on the haciendas ate better than the stable hands to political assassination in contemporary Thailand where government posts have become so lucrative that to gain them candidates will kill their rivals In these writing the subtle imbrication of politics national imaginings bureaucracy modernization and its agents particularly print culture is brought out in all its complexity and richness The spectre of comparisons was a phrase used by the celebrated Filipino nationalist and novelist Jose Rizal 1861-96 whose work and fate in the national imagination are discussed in these pages In his finely wrought observations on Southeast Asian societies Anderson raises deep questions concerning this spectre about how for instance Manila is changed when it can no longer be seen through a comparison with European capitals and how more broadly nationalism is produced by the process of increasing global connection The Spectre of Comparisons is an indispensable resource for those interested in South East Asia But it also contains important theoretical and historical considerations about nationalism national literature and memory modernization and the prospects for the Left in what Anderson dubs The New World Disorder *The Spectre of Comparisons*, 2000

Grounds of Comparison Pheng Cheah, Jonathan Culler, 2013-08-21 Benedict Anderson professor at Cornell and specialist in Southeast Asian studies is best known for his book *Imagined Communities: Reflections on the Origin and Spread of Nationalism* 1991 It is no understatement to say that this is one of the most influential books of the last twenty years Widely read both by social scientists and humanists it has become an unavoidable document For people in the humanities Anderson is particularly interesting because he explores the rise of nationalism in connection with the rise of the novel **A**

Coincidence of Desires Tom Boellstorff, 2007-04-25 An anthropological examination of non normative male sexuality outside of the West using Indonesia as a case study **Rethinking Comparison** Erica S. Simmons, Nicholas Rush

Smith, 2021-10-07 Brings together chapters from more than a dozen leading methods scholars to revolutionize qualitative research design Provides novel strategies for conducting comparative political research beyond the controlled comparisons typically taught in graduate methods courses **Taiwan Under Japanese Colonial Rule, 1895-1945** Binghui Liao, Dewei Wang, 2006 The first study of colonial Taiwan in English this volume brings together seventeen essays by leading scholars to construct a comprehensive cultural history of Taiwan under Japanese rule Contributors from the United States Japan and Taiwan explore a number of topics through a variety of theoretical comparative and postcolonial perspectives painting a

complex and nuanced portrait of a pivotal time in the formation of Taiwanese national identity Essays are grouped into four categories rethinking colonialism and modernity colonial policy and cultural change visual culture and literary expressions and from colonial rule to postcolonial independence Their unique analysis considers all elements of the Taiwanese colonial experience concentrating on land surveys and the census transcolonial coordination the education and recruitment of the cultural elite the evolution of print culture and national literature the effects of subjugation coercion discrimination and governmentality and the root causes of the ethnic violence that dominated the postcolonial era The contributors encourage readers to rethink issues concerning history and ethnicity cultural hegemony and resistance tradition and modernity and the romancing of racial identity Their examination not only provides a singular understanding of Taiwan's colonial past but also offers insight into Taiwan's relationship with China Japan and the United States today Focusing on a crucial period in which the culture and language of Taiwan China and Japan became inextricably linked Taiwan Under Japanese Colonial Rule effectively broadens the critique of colonialism and modernity in East Asia

Genres of Modernity Dirk

Wiemann, 2008-01-01 Genres of Modernity maps the conjunctures of critical theory and literary production in contemporary India The volume situates a sample of representative novels in the discursive environment of the ongoing critical debate on modernity in India and offers for the first time a rigorous attempt to hold together the stimulating impulses of postcolonial theory subaltern studies and the boom of Indian fiction in English In opposition to the entrenched narrative of modernity as a single universally valid formation originating in the West the theoretical and literary texts under discussion engage in a shared project of refiguring the present as a site of heterogeneous genres of modernity The book traces these figurative efforts with particular attention to the treatment of two privileged metonymies of modernity the issues of time and home in Indian fiction Combining close readings of literary texts from Salman Rushdie to Kiran Nagarkar with a wide range of philosophical sociological and historiographic reflections Genres of Modernity is of interest not only for students of postcolonial literatures but for academics in the fields of Cultural Studies at large
