Speculation Hedging And Commodity Price Forecasts:

Speculation, Hedging, and Commodity Price Forecasts Walter C. Labys, Clive William John Granger, 1970

Speculation, Hedging and Commodity Price Forecasts, 1973 **Modeling and Forecasting Primary Commodity Prices** Walter C. Labys, 2017-03-02 Recent economic growth in China and other Asian countries has led to increased commodity demand which has caused price rises and accompanying price fluctuations not only for crude oil but also for the many other raw materials. Such trends mean that world commodity markets are once again under intense scrutiny. This book provides new insights into the modeling and forecasting of primary commodity prices by featuring comprehensive applications of the most recent methods of statistical time series analysis. The latter utilize econometric methods concerned with structural breaks, unobserved components, chaotic discovery, long memory, heteroskedasticity, wavelet estimation, and fractional integration. Relevant tests employed include neural networks, correlation dimensions, Lyapunov exponents, fractional integration, and rescaled range. The price forecasting involves structural time series trend plus cycle and cyclical trend models. Practical applications focus on the price behaviour of more than twenty international commodity markets.

Commodity Models for Forecasting and Policy Analysis Walter C. Labys, Peter K. Pollak, 2024-02-01 Originally published in 1984, this book remains as relevant as when it was first published. At that time, the oil crises of the 1970s and the growing international debt burden highlighted the extent to which events in primary commodity markets continue to influence the economies of developing and industrialized economies alike. Commodity modelling has become a valuable tool in efforts to predict and understand the behaviour of commodity markets and thereby reduce their fluctuations. This book provides an overview of the nature of the different types of commodity model as well as their diverse applications. In non-technical language, the reader is introduced to the underlying modelling methodologies, including their advantages, limitations, and commodity-specific implications. The book will be of interest to commodity economists, traders, and analysts, economic planners, and those involved in agricultural, mineral, and energy modelling.

Commodity Modeling and Pricing Peter V. Schaeffer, 2008-12-03 Commodity Modeling and Pricing provides extensions and applications of state-of-the-art methods for analyzing resource commodity behavior. Drawing from the seminal work of Professor Walter Labys on the development of econometric methods for forecasting commodity prices, this collection of essays features expert contributors ranging from practitioners in private industry, public sector, and nongovernmental organizations to scholars in higher education, all of whom were Labys's former students or collaborators. Filled with in-depth insights and expert advice, Commodity Modeling and Pricing contains the information you need to excel in this demanding environment.

A Reappraisal of the Efficiency of Financial Markets Rui M.C. Guimaraes, Brian G. Kingsman, Stephen J. Taylor, 2013-06-29 The behaviour of market prices is a fascinating subject for researchers. Opinions vary substantially from the view that prices accurately and quickly reflect relevant information to the other extreme that prices are not rationally determined and are hence to some degree predictable.

This diversity of belief about the efficiency of markets is reflected in these proceedings of the NATO Advanced Research Workshop on A reappraisal of the efficiency of financial markets The thirty one workshop papers cover stock currency and commodity markets We are pleased to have contributions on markets in eleven NATO countries Belgium Canada Denmark France Germany Greece Italy the Netherlands Portugal the United Kingdom and the United States The workshop papers thus provide a wide ranging account of contemporary research into financial markets worldwide The workshop was held at the Hotel do Mar Sesimbra Portugal from April 11 th to April 15th 1988 We record our gratitude to Jose Cabral for ensuring the smooth progress of the workshop The generous financial assistance of NATO was supplemented by contributions from The Chicago Board of Trade Alianca Seguradora Banco Comercial Portugues Fundacao Luso Americana Para O Desenvolvimento Junta Nacional de Investigacao Cientifica e Tecnologica We speak for all the workshop participants in expressing our thanks to all our sponsors Rui M Campos Guimaraes University of Porto *Technical Bulletin* ,1976 Speculation, Hedging and Commodity Price Forecasts Arnold B.
