Branski, Sonja Molfenter, 2020-02-29 Exceptionally insightful speech language pathology textbook highlights individual cases to augment learning Speech Language Pathology Casebook by Ryan Branski Sonja Molfenter and an impressive array of contributors presents a diverse spectrum of cases covering communication voice and swallowing disorders in children and adults Readers are provided with rich and varied narratives underscoring the fact that clinical intervention of speech language disorders is an art form based on science Evidence based assessments and treatments cover a variety of settings including medical inpatient outpatient and skilled nursing facility home health school community based and private practice Eighty cases following a standardized format encompass a wide range of congenital and acquired disorders spanning the age continuum Each case includes a clinical history and description evaluations testing diagnosis treatment outcomes questions and answers suggested readings and references With invaluable firsthand insights from practitioners this unique resource enhances the ability to develop effective patient informed interventions Key Highlights Discussion of problems frequently omitted from typical curricula but increasingly relevant to contemporary clinical practice ranging from telepractice to transgender voice modification Speech related issues in children associated with cleft palate autism spectrum disorder stuttering bilingual language delays severe intellectual disability congenital porencephaly FASD apraxia and many others Medical conditions in adults that impact speech language such as traumatic brain injury ALS right hemisphere disorder stroke autoimmune encephalopathy dementia Parkinson's disease autism and more Videos audio bulleted key points and handy comparative charts provide additional pearls The detailed case narratives enable speech

language students to connect and apply theory and knowledge acquired in the classroom to real life clinical practice. Instructors and speech language pathologists will also benefit from this excellent teaching and clinical reference. *Speech, Language, and Hearing Disorders* Herbert J. Oyer, Barbara J. Crowe, William H. Haas, 1987. Managing Children with Developmental Language Disorder James Law, Cristina McKean, Carol-Anne Murphy, Elin Thordardottir, 2019-04-09. Although most children learn language relatively quickly as many as 10 per cent of them are slow to start speaking and are said to have developmental language disorder DLD. Children with DLD are managed by a variety of different professionals in different countries are offered different services for different periods of time and are given a variety of different therapeutic treatments. To date there has been no attempt to evaluate these different practices. *Managing Children with Developmental Language Disorder: Theory and Practice Across Europe and Beyond* does just this reporting on the findings of a survey carried out as part of the work of COST Action IS1406 a European research network. Law and colleagues analyse the results of a pan European survey looking at how different services are delivered in different countries at the cultural factors underpinning such services and the theoretical frameworks used to inform practice in different countries. The book also provides a snapshot of international practices in a set of 35 country specific vignettes providing a benchmark for future developments but also calling attention to the work of key practitioners and thinkers in each of the countries investigated. This book will be essential reading for practitioners working with children with language impairments those commissioning services and policy in the field and students of speech and language therapy. **Language Disorders from Infancy Through Adolescence** Rhea Paul, 2007-01-01. This text provides students with the information needed to properly assess childhood language disorders and decide appropriate treatments. The book covers language development from birth to adolescence.
