Speleology Caves The Cave Environment:

Speleology George William Moore, Gerardus Nicholas Sullivan, 1997 **Speleology** George William Moore, Gerardus Nicholas Sullivan, 1978 Encyclopedia of Caves and Karst Science John Gunn, 2004 The Encyclopedia of Caves and Karst Science examines cave and karst geoscience cave archaeology and human use of caves art in caves hydrology and groundwater cave and karst history and conservation and management **Cave Biology** Aldemaro Romero, 2009-07-23 Biospeleology the study of organisms that live in caves has a tremendous potential to inform many aspects of modern biology yet this area of knowledge remains largely anchored in neo Lamarckian views of the natural world in both its approaches and jargon Written for graduate students and academic researchers this book provides a critical examination of current knowledge and ideas on cave biology with emphasis on evolution ecology and conservation Aldemaro Romero provides a historical analysis of ideas that have influenced biospeleology discusses evolutionary phenomena in caves from cave colonization to phenotypic and genotypic changes and integrates concepts and knowledge from diverse biological viewpoints He challenges the conventional wisdom regarding the biology of caves and highlights urgent questions that should be addressed in order to get a better and more complete understanding of caves as ecosystems Encyclopedia of Caves William B. White, David C. Culver, 2011-12-09 Encyclopedia of Caves is a self contained beautifully illustrated work dedicated to caves and their unique environments It includes more than 100 comprehensive articles from leading scholars and explorers in 15 different countries Each entry is detailed and scientifically sound yet accessible for students and non scientists This large format reference is enhanced with hundreds of full color photographs maps and drawings from the authors own work which provide unique images of the underground environment Global in reach authors are an international team of experts covering caves from around the world Includes 24 new articles commissioned especially for this 2nd edition Articles contain extensive bibliographies cross referencing related essays Hundreds of color photographs maps charts and illustrations of cave features and biota A Z sequence and a comprehensive index allow for easy location of topics Glossary presents definitions of all key vocabulary items **Treatise on Geomorphology**, 2013-02-27 The changing focus and approach of geomorphic research suggests that the time is opportune for a summary of the state of discipline The number of peer reviewed papers published in geomorphic journals has grown steadily for more than two decades and more importantly the diversity of authors with respect to geographic location and disciplinary background geography geology ecology civil engineering computer science geographic information science and others has expanded dramatically As more good minds are drawn to geomorphology and the breadth of the peer reviewed literature grows an effective summary of contemporary geomorphic knowledge becomes increasingly difficult The fourteen volumes of this Treatise on Geomorphology will provide an important reference for users from undergraduate students looking for term paper topics to graduate students starting a literature review for their thesis work and professionals seeking a concise summary of a particular topic Information on the

historical development of diverse topics within geomorphology provides context for ongoing research discussion of research strategies equipment and field methods laboratory experiments and numerical simulations reflect the multiple approaches to understanding Earth's surfaces and summaries of outstanding research questions highlight future challenges and suggest productive new avenues for research Our future ability to adapt to geomorphic changes in the critical zone very much hinges upon how well landform scientists comprehend the dynamics of Earth's diverse surfaces This Treatise on Geomorphology provides a useful synthesis of the state of the discipline as well as highlighting productive research directions that Educators and students researchers will find useful Geomorphology has advanced greatly in the last 10 years to become a very interdisciplinary field Undergraduate students looking for term paper topics to graduate students starting a literature review for their thesis work and professionals seeking a concise summary of a particular topic will find the answers they need in this broad reference work which has been designed and written to accommodate their diverse backgrounds and levels of understanding Editor in Chief Prof J F Shroder of the University of Nebraska at Omaha is past president of the QG G section of the Geological Society of America and present Trustee of the GSA Foundation while being well respected in the geomorphology research community and having won numerous awards in the field A host of noted international geomorphologists have contributed state of the art chapters to the work Readers can be guaranteed that every chapter in this extensive work has been critically reviewed for consistency and accuracy by the World expert Volume Editors and by the Editor in Chief himself No other reference work exists in the area of Geomorphology that offers the breadth and depth of information contained in this 14 volume masterpiece From the foundations and history of geomorphology through to geomorphological innovations and computer modelling and the past and future states of landform science no stone has been left unturned Rural Life and Culture in the Upper Cumberland Michael Birdwell, W. Calvin Dickinson, 2004-12-24

Seventeen original essays by prominent scholars uncover fascinating stories and personalities from the Upper Cumberland region of Kentucky and Tennessee often regarded as isolated and out of pace with the rest of the country but seen here as having a far richer history and culture than previously thought Cave Biology Aldemaro Romero Díaz, 2009-07-23 A critical examination of current knowledge and ideas on cave biology with emphasis on evolution ecology and conservation Ice Caves Aurel Persoiu, Stein-Erik Lauritzen, 2017-11-30 Ice Caves synthesizes the latest research on ice caves from around the world bringing to light important information that was heretofore buried in various reports journals and archives largely outside the public view Ice caves have become an increasingly important target for the scientific community in the past decade as the paleoclimatic information they host offers invaluable information about both present day and past climate conditions Ice caves are caves that host perennial ice accumulations and are the least studied members of the cryosphere They occur in places where peculiar cave morphology and climatic conditions combine to allow for ice to form and persist in otherwise adverse parts of the planet The book is an informative reference for scientists interested in ice cave studies climate

scientists geographers glaciologists microbiologists and permafrost and karst scientists Covers various aspects of ice occurrence in caves including cave climate ice genesis and dynamics and cave fauna Features an overview of the paleoclimatic significance of ice caves Includes over 100 color images of ice caves around the world **The Climate Near the Ground** Rudolf Geiger, Robert H. Aron, Paul Todhunter, 2009 This revised and updated edition of Rudolf Geiger's classic text provides a clear and vivid description of the surface microclimate its physical basis and its interactions with the biosphere The book explains the principles of microclimatology and illustrates how they apply to a wide array of subfields Those new to the field will find it especially valuable as a guide to understanding and quantifying the vast and ever increasing literature on the subject Designed as an introductory text for students in environmental science this book will also be an essential reference for scientists seeking a clear understanding of the nature and physical basis of the climate near the ground and its interactions with the biosphere
