Spem In Alium Nunquam Habui 40 Part Motet:

Thomas Tallis John Harley, 2016-02-24 John Harley's *Thomas Tallis* is the first full length book to deal comprehensively with the composer's life and works. Tallis entered the Chapel Royal in the middle of a long life and remained there for over 40 years. During a colourful period of English history he famously served King Henry VIII and the three of Henry's children who followed him to the throne. His importance for English music during the second half of the sixteenth century is equalled only by that of his pupil, colleague and friend William Byrd. In a series of chronological chapters Harley describes Tallis's career before and after he entered the Chapel. The fully considered biography is placed in the context of larger political and cultural changes of the period. Each monarch's reign is treated with an examination of the ways in which Tallis met its particular musical needs. Consideration is given to all of Tallis's surviving compositions including those probably intended for patrons and amateurs beyond the court and attention is paid to the context within which they were written. Tallis emerges as a composer whose music displays his special ability in setting words and creating ingenious musical patterns. A table places most of Tallis's compositions in a broad chronological order.

Thomas Tallis and His Music in Victorian England

Suzanne Cole, 2008 A survey of the huge importance of Thomas Tallis, the Father of Church Music on Victorian musical life. In Victorian England Tallis was ever present in performances of his music in accounts of his biography and through his representation in physical monuments. Known in the nineteenth century as the Father of English Church Music, Tallis occupies a central position in the history of the music of the Anglican Church. This book examines in detail the reception of two works that lie at the stylistic extremes of his output: *Spem in alium*, revived in the 1830s though generally not greatly admired, and the Responses, which were very popular. A close study of the performances, manuscripts and editions of these works casts light on the intersections between the antiquarian liturgical and aesthetic goals of nineteenth century editors and musicians. By tracing Tallis's reception in nineteenth century England, the author charts the hold Tallis had on the Victorians and the ways in which Anglican and English identity was defined and challenged. Dr SUE COLE is a research associate at the Faculty of Music, University of Melbourne.

New Media Dramaturgy Peter Eckersall, Helena

Grehan, Edward Scheer, 2017-04-28 This book illuminates the shift in approaches to the uses of theatre and performance technology in the past twenty five years and develops an account of new media dramaturgy. NMD, an approach to theatre informed by what the technology itself seems to want to say, is born of the synthesis of new media and new dramaturgy. NMD is practiced and performed in the work of a range of important artists from dumb type and their 1989 analog industrial machine performance *pH* to more recent examples from the work of Kris Verdonck and his *A Two Dogs Company*. Engaging with works from a range of artists and companies including Blast Theory, Olafur Eliasson, Nakaya Fujiko and Janet Cardiff, we see a range of extruded performative technologies operating overtly on with and against human bodies alongside more subtle dispersed interactive and experiential media.
