Steven J. Zaloga,2013-08-20 The Allies M10 Tank Destroyer and the Germans Sturmgeschütz StuG III were the unsung workhorses of the northwest European battlefields of 1944 45 While their mission was not principally fighting one another their widespread use ensured their frequent encounters from the Normandy Bocage to the rubble strewn streets of Aachen The StuG III was the quintessential assault gun a low slung heavily armoured turret less vehicle intended to provide direct fire support for infantry formations whilst the M10 3in Gun Motor Carriage was originally developed as a tank destroyer However by 1944 the 3in gun proved ineffectual against the most thickly armored German tanks and was consequently relegated to infantry support too Widely deployed in roles their designers had not envisaged these two armoured fighting vehicles clashed repeatedly during the 11 month campaign which saw the Allies advance from Normandy to the heart of the Reich Fully illustrated with specially commissioned artwork this is the story of their confrontation at the height of World War II

providing a look into military technology that will entrance military history buffs and reluctant readers *Heinz Guderian* Pier Paolo Battistelli, 2013-02-20 A focused military biography of Heinz Guderian perhaps the most highly respected tank commander of World War II Guderian was a typical product of the Prussian military elite the son of a general in the army there was little doubt that he would follow in his father's footsteps Some consider Guderian to be the founding father of blitzkrieg warfare and he certainly brought the whole concept to public attention and prominence chiefly through the publication of his book *Achtung Panzer* in 1937 He commanded the XIX Motorized Army Corps in the 1939 Polish campaign and Panzergruppe Guderian during Operation Barbarossa In March 1943 he became chief inspector of the Panzer forces but even the great tank commander could achieve little more than to delay the inevitable defeat of Germany *Italian Army Elite Units & Special Forces 1940-43* Pier Paolo Battistelli, 2011-11-20 Italian military historian Pier Paolo Battistelli examines the elite and special forces units of the Italian Army during World War II This includes a vast array of troop types including paratroopers assault engineers sea landing and swimmer units long range reconnaissance and ski units and even hand picked Fascist Mussolini units It also delves into the specialist tank and armoured units that were created to emulate the German armoured units While the Italian units discussed enjoyed mixed success the volume draws attention to the incredibly hard fighting done by some in the deserts of North Africa and the frozen wastelands of Russia Illustrated with rare archival photographs and specially commissioned artwork this is a fascinating insight into a little studied aspect of Axis forces

**Stug III & Stug IV** Dennis Oliver, 2019-03-30 A guide that blends the history behind this German World War II tank with resources for military vehicle modeling enthusiasts In the last years of the Second World War the Sturmgeschütz III StuG III and Sturmgeschütz IV StuG IV played a vital role as assault guns during the German army's struggle to block the Allied advance on the Western Front As the Wehrmacht's tank forces declined these armored vehicles were thrown into every defensive operation They are not as well known as the Tigers and Panthers but German resistance would have been much weaker without them They were also among the most frequently encountered German armored vehicles on the battlefields which is why they are such a fascinating subject for Dennis Oliver in this volume in the TankCraft series He uses archive photos and extensively researched color illustrations to examine the StuG III and StuG IV deployed by the German army and the Waffen SS during these doomed campaigns A key section of his book displays available model kits and aftermarket products complemented by a gallery of beautifully constructed and painted models in various scales Technical details as well as modifications introduced during production and in the field are also examined providing everything the modeler needs to recreate an accurate representation of these historic armored vehicles **Hitler's Panzers** Ian Baxter, 2007-03-28 A World War II pictorial history of Nazi Germany's armored fighting vehicles and exploration of their inner workings Using previously unpublished photographs many of which have come from the albums of individuals who took part in the war *Hitler's Panzers* presents a unique visual account of Germany at arms The book analyzes the development of the Panzer and shows how it

became Hitler's supreme weapon. It describes how the Germans carefully built up their assault forces utilizing all available reserves and resources and making them into effective killing machines. From the Panzerkampfwagen 1 to the most powerful tank of the Second World War the Jagdtiger, the volume depicts how these machines were adapted and up-gunned to face the ever-increasing enemy threat. Hitler's Panzers is a unique look into the full workings of the various light tanks, main battle tanks, self-propelled assault guns and tank destroyers. Zaloga, 2019-08-22. In the summer of 1944, the Red Army staged a massive armored assault up the Karelian Isthmus with the intent of eliminating any remaining German and Finnish forces facing the Leningrad region. Most of the Soviet units sent into Finland were new to the region, moving mainly from the fighting in the Leningrad area. As a result, some had the latest types of Soviet equipment, including the new T-34-85 tank, fielded alongside the older T-34-76. Germany refused to sell the Finns new tanks without a reinforced military alliance, but in 1943 began selling them a few dozen StuG III assault guns. This made the StuG III battalion the most modern and powerful element of the Finnish armored division, and it saw very extensive combat in the June-July summer battles. Featuring specially commissioned artwork and an array of archive photographs, this is the absorbing story of the parts played by Soviet and Finnish armor in the epic battles in Finland during June and July 1944.
