Reading the Impossible Elizabeth Weed, 2024-05-07 Reading the impossible has never seemed less possible A few decades ago critical readings could view the collapse of foundationalism optimistically With meaning no longer soldered onto being there was hope for all those beings whose meaning had been forever ordained by Nature or the Divine Critical reading thus became a way of exploring the devious workings of knowledge and power But as non foundational systems of meaning have proven to be so perfectly suited to the transactional logics of the market reading for the impasses of meaning has come to be seen as quixotic impractical and dated To concur with that view Elizabeth Weed argues is to embrace the fantasy told by the neoliberal order To read the impossible is to disrupt that fantasy with its return to stable categories of marketable identity in order to contest the inexorable workings of misogyny and racism This book seeks to disturb the positivity of identity in the hope of retrieving the impossibility of sexual difference an impossibility that has its effects in the Real of misogyny A return to the famous debate between Derrida and Lacan on the impossibility of sexual difference yields two different readings of the impossible In reconsidering these questions Weed shows how the practice of reading can powerfully stage the wiles of language and the unconscious In returning to that earlier moment in the context of current debates on the role of reading and interpretation Weed offers a fresh perspective on what is at stake for critical reading in the neoliberal university

Writing the Structures of the Subject Will Greenshields, 2017-03-07 This book examines and explores Jacques Lacan's controversial topologisation of psychoanalysis and seeks to persuade the reader that this enterprise was necessary and important In providing both an introduction to a fundamental component of Lacan's theories as well as readings of texts that have been largely ignored it provides a thorough critical interpretation of his work Will Greenshields argues that Lacan achieved his most pedagogically clear and successful presentations of his most essential and notoriously complex concepts such as structure the subject and the real through the deployment of topology The book

will help readers to better understand Lacan and also those concepts that have become prevalent in various intellectual discourses such as contemporary continental philosophy politics and the study of ideology and literary or cultural criticism

Lacanian Psychoanalysis and American Literature Raul Moncayo, 2023-09-29 Lacanian Psychoanalysis and American Literature considers the psychoanalytic applications of three classic works of nineteenth century literature applying Lacanian concepts throughout Moncayo imports the dynamisms and texture of three English and American stories with the aim of developing psychoanalytic theory rather than simply confirming or applying previously adopted psychoanalytic concepts and theory The author begins with The Purloined Letter by Edgar Allan Poe assessing the differences between Derrida's and Lacan's analysis of this famous story The book then considers The Turn of the Screw by Henry James using James text for an in depth analysis of Lacan's Seminar on the Logic of the Fantasy and Wuthering Heights by Emily Bront considering passage l'acte and the objet a as the Wind and Heart of the Signifier The authors use Lacan's later theories to cast a new interpretative light on the stories much as Lacan himself did with the work of James Joyce Lacanian Psychoanalysis and American Literature will be of interest to academics and scholars of literary studies psychoanalytic and Lacanian studies and Philosophy

Reading Seminar XX Suzanne Barnard, Bruce Fink, 2012-02-01 This collection offers the first sustained in depth commentary on Seminar XX Encore considered the cornerstone of Lacan's work on the themes of sexual difference knowledge jouissance and love Although Seminar XX was originally popularized as Lacan's treatise on feminine sexuality these essays by some of today's foremost Lacanian scholars go beyond feminine sexuality to address Lacan's significant intertwining concern with the rupture between reality and the real produced by modern science and the implications of this rupture for subjectivity knowledge jouissance and the body The essays clarify basic concepts but for readers already familiar with Lacan they also offer sophisticated workings through of the more challenging and obscure arguments in Encore both by tracing their historical development across Lacan's oeuvre and by demonstrating their relation to particular philosophical theological mathematical and scientific concepts They cover much of the terrain necessary for understanding sexual difference not in terms of chromosomes body parts choice of sexual partner or varieties of sexual practice but in terms of one's position vis vis the Other and the kind of jouissance one is able to obtain In so doing they make significant interventions in the debates regarding sex gender and sexuality in feminist theory philosophy queer theory and cultural studies Antigone,

in Her Unbearable Splendor Charles Freeland, 2013-06-01 A study of Lacan's engagement with the Western philosophical traditions of ethical and political thought in his seventh seminar and later work *Reading Seminar XI* Richard Feldstein, Bruce Fink, Maire Jaanus, 1994-12-23 This book provides the first truly sustained commentary to appear in either French or English on Lacan's most important seminar The Four Fundamental Concepts of Psychoanalysis The 16 contributors unpack Lacan's notoriously difficult work in simple terms and supply elegant illustrations from a variety of fields psychoanalytic treatment film literature art and so on Each of Lacan's fundamental concepts the unconscious transference

Lacan's Ethics and Nietzsche's Critique of Platonism Tim Themi, 2014-04-10 Bringing together Jacques Lacan and Friedrich Nietzsche Tim Themi focuses on their conceptions of ethics and on their accounts of the history of ethical thinking in the Western tradition Nietzsche blames Plato for setting in motion a degenerative process that turned ethics away from nature the body and its senses and thus eventually against our capacities for reason science and a creative flourishing life Dismissing Plato's Supreme Good as a mirage Lacan is very much in sympathy with Nietzsche's reading Following this premise Themi shows how Lacan's ethics might build on Nietzsche's work thus contributing to our understanding of Nietzsche and also how Nietzsche's critique can strengthen our understanding of Lacan

Reading Lacan's Seminar VIII Gautam Basu Thakur, Jonathan Dickstein, 2020-03-23 This book provides 18 lively commentaries on Lacan's Seminar VIII Transference 1960-61 that explore its theoretical and philosophical consequences in the clinic the classroom and society Including contributions from clinicians as well as scholars working in philosophy literature and culture studies the commentaries presented here represent a wide range of disciplinary perspectives on the concept of transference Some chapters closely follow the structure of the seminar's sessions while others take up thematic concerns or related sessions such as the commentary on sessions 19 to 22 which deal with Lacan's discussion of Claudel's *Co fontaine* trilogy This book is not a compendium to Lacan's seminar Instead it attempts to capture through shorter contributions a spectrum of voices debating deliberating and learning with Lacan's concept In doing so it can be seen to engage with transference conceptually in a manner that matches the spirit of Lacan's seminar itself The book will provide an invaluable new resource for Lacan scholars working across the fields of psychoanalytic theory clinical

psychology philosophy and cultural studies *Thinking without Desire* Panu Minkkinen, 1999-09-01 The book is an attempt to evaluate the reception of Continental philosophy phenomenology hermeneutics deconstruction etc within mainstream jurisprudence The book claims that the reduction of philosophy to social theory can only be accomplished by impoverishing the impetus of philosophical thinking and consequently by transforming critique into criticism and the philosophy of law into legal theory The response developed in this book is the creation of a metaphysical understanding of law or in other words what Aristotle called a first philosophy In addition to philosophy proper the classics of Antiquity the great German philosophers contemporary French thinking the book covers a wide range of jurisprudential literature These include the neo Kantian philosophers of law whose thinking is allegedly at the root of legal positivism but special emphasis is also given to existential philosophers of law deeply inspired by the hermeneutical phenomenology of Martin Heidegger Lastly the book encourages specifically philosophical approaches in law to the thinking of French contemporaries whose work has inspired critical legal scholarship during the past ten years Lacanian Psychoanalysis Ian Parker, 2010-07-16 Lacanian Psychoanalysis looks at the current debates surrounding Lacanian practice and explores its place within historical social and political contexts It draws on Lacan's approach to shed light on issues relevant to current therapeutic practice
