## **Subjects Of Terror Nerval Hegel And The Modern Self:**

**Subjects of Terror** ,1998-12 Subjects of Terror uses a reading of the French Romantic poet G rard de Nerval to elucidate and critique a death based ideology of subjectivity that has remained in force from Kant to Lacan This model despite variations is distinguished by three principal characteristics that the subject is the self sameness of individual experience that as such it functions like language or more specifically like writing and that this self sameness is the annihilation of all individual experiences Theorized by Hegel Heidegger Koj ve and Lacan this abstract and ultimately impersonal notion of the self was not merely theoretical however It was for example long instantiated and enforced by the guillotine Even in its more intimate and less spectacular forms it provoked strong affective responses as is evidenced by writers of the Romantic period from Hugo to Mallarm Zola and Nietzsche As part of this affective reaction Nerval s writings exemplify not only how this negative self construction determines self understanding but also how it determines self experience or in other words the way it feels to be a self in this cultural and historical context That feeling is fundamentally terror and the context is still in many ways our own The book demonstrates that Nerval s works constitute an aesthetic resistance to that ideology of terror and as such helped open the way for the ethical models of subjectivity that will appear in Kristeva Aulagnier and Levinas Although for two centuries social theoretical and aesthetic forces have coerced individuals into experiencing the world through the morbid filter of their own absolute destruction the author argues through Nerval for the possibility of an alternate open ended model of experience based on the libidization of language itself

**States of Terror** David Simpson,2019-03-08 How have we come to depend so greatly on the words terror and terrorism to describe broad categories of violence David Simpson offers here a philology of terror tracking the concept s long complicated history across literature philosophy political science and theology from Plato to NATO Introducing the concept of the fear terror cluster Simpson is able to capture the wide range of terms that we have used to express extreme emotional states over the centuries from anxiety awe and concern to dread fear and horror He shows that the choices we make among such words to describe shades of feeling have seriously shaped the attribution of motives causes and effects of the word terror today particularly when violence is deployed by or against the state At a time when terror talk is widely and damagingly exploited by politicians and the media this book unpacks the slippery rhetoric of terror and will prove a vital resource across humanistic and social sciences disciplines

Hegel and Psychoanalysis Molly Macdonald,2014-06-03 Both Hegel s philosophy and psychoanalytic theory have profoundly influenced contemporary thought but they are traditionally seen to work in separate rather than intersecting universes This book offers a new interpretation of Hegel s Phenomenology of Spirit and brings it into conversation the work of two of the best known contemporary psychoanalysts Christopher Bollas and Andr Green Hegel and Psychoanalysis centers a consideration of the Phenomenology on the figure of the Unhappy Consciousness and the concept of Force two areas that are often overlooked by studies which focus on the master slave dialectic This book

offers reasons for why now more than ever we need to recognize how concepts of intersubjectivity Force the Third and binding are essential to an understanding of our modern world Such concepts can allow for an interrogation of what can be seen as the profoundly false and constructed senses of community and friendship created by social networking sites and further an idea of a global community which thrives at the expense of authentic intersubjective relations

Terror and Its Discontents Caroline Weber, 2003-01-01 Camille Desmoulins a journalist writing under the Montagnard regime of 1793 94 remarked that France s government had replaced the language of democracy with the cold poison of fear which paralyzed thought in the bottom of people s souls and prevented it from pouring forth at the tribunal or in writing How this happened how the Reign of Terror reached even into the realms of thought and language is the subject of Caroline Weber s book a revealing look into the paradoxical embargo on free expression that underpinned the Robespierrists self proclaimed despotism of liberty during

the French Revolution Weber examines Jean Jacques Rousseau's and the Robespierrists articulation of a series of initiatives designed to curtail and control the dissemination of alternative political and philosophical messages in the republic Here Weber underscores the internal contradictions and limitations of an enterprise that promised universal freedom while oppressing particularism and that railed against the very language that it was compelled to adopt as a principal political tool The book then focuses on two eloquent contemporary critics of this phenomenon Desmoulins and the Marquis de Sade the infamous libertine author Weber demonstrates how Desmoulins reconfigured the Montagnard regime's rhetoric to conjure up a political system based on tolerance not terror and how Sade deftly parodied the Robespierrists brutality and hypocrisy proposing a republic based on the ruthless elimination of dissident voices and on the unabashed celebration of despotism and bloodshed A balanced account of how the discourse of totality actually restricted particular freedoms in the wake of the French Revolution this book provides a highly original and timely exposition of the political uses of rhetoric and of the links between language and power

Taylor,2006 French novels such as Madame Bovary and The Stranger are staples of high school and college literature courses This work provides coverage of the French novel since its origins in the 16th century with an emphasis on novels most commonly studied in high school and college courses in world literature and in French culture and civilization The Political Aesthetics of ISIS and Italian Futurism Thorsten Botz-Bornstein,2018-12-17 Through empirical analysis and theoretical reflection this book shows that the aesthetics and politics of the Islamic State is futurist ISIS overcomes postmodern pessimism and joins the modern techno oriented and optimistic attitude propagated by Italian Futurism in the early twentieth century The Islamic State does not only excel through the extensive use of high tech weapons social media commercial bot and automated text systems By putting forward the presence of speeding cars and tanks mobile phones and computers ISIS presents jihad life as connected to modern urban culture Futurism praised violence as a means of leaving behind imitations of the past in order to project itself most efficiently into the future A profound sense of crisis produces in both Futurism and jihadism a nihilistic attitude toward the present state of society that will be overcome through an exaltation of technology Futurists were opposed to parliamentary democracy and sympathized with nationalism and colonialism ISIS jihadism suggests a similarly curious combination of modernism and conservative values The most obvious modern characteristic of this new image of fundamentalism is the highly aestheticized recruiting material

**Jewish Philosophical Politics in Germany, 1789-1848** Sven-Erik Rose,2014-07-29 In this book Rose illuminates the extraordinary creativity of Jewish intellectuals as they reevaluated Judaism with the tools of a German philosophical tradition fast emerging as central to modern intellectual life While previous work emphasizes the subversive dimensions of German Jewish thought or the inner antisemitism of the German philosophical tradition Rose shows convincingly the tremendous resources German philosophy offered contemporary Jews for thinking about the place of Jews in the wider polity Offering a fundamental reevaluation of seminal figures and key texts Rose emphasizes the productive encounter between Jewish intellectuals and German philosophy He brings to light both the complexity and the ambivalence of reflecting on Jewish identity and politics from within a German tradition that invested tremendous faith in the political efficacy of philosophical thought itself

**Seductions of Fate** G. Basterra,2004-02-24 If the tragic interpretation of experience is still so current despite its disastrous ethical consequences it is because it shapes our subjectivity Instead of contradicting the ideals of autonomy and freedom a modern subjectivity based on self victimization in effect enables them By embracing subjection to an alienating other the Law Power the autonomous subject protects its sameness from the disruption of real people Seductions of Fate stages a dialogue between this tragic agent of political emancipation and the unconditional ethical demands it seeks to evade

**A Cultural History of Tragedy in the Age of Enlightenment** Mitchell Greenberg,2021-05-20 The period covered by this volume in the Cultural History of Tragedy set is bookended by two shockingly similar historical events the beheading of a king Charles I of England in 1649 and Louis XIV of France in 1793 The period between these two dates saw enormous

political social and economic changes that altered European society's cultural life Tragedy which had dominated the European stage at the beginning of this period gradually saw itself replaced by new literary forms culminating in the gradual decline of theatrical tragedy from the heights it had reached in the 1660s The dominance of France's military and cultural prestige during this period is reflected in the important almost exclusive space dedicated in this volume to the French stage This book covers the tragedies of France's two greatest playwrights Pierre Corneille 1606-84 and Jean Racine 1639-99 which would dominate not only the French stage but through translations and adaptations became the model of tragic theater across Europe finding imitators in England Dryden Italy Alfieri and as far afield as Russia This dominance continued well into the 18th century with the triumph of Voltaire's tragedies This volume also examines how the writings of Diderot and Lessing changed the direction of theatre and how after the Revolution in the writings of Goethe Schiller Hegel tragedy and the tragic were reimagined and became the sign of European modernity Each chapter takes a different theme as its focus forms and media sites of performance and circulation communities of production and consumption philosophy and social theory religion ritual and myth politics of city and nation society and family and gender and sexuality

**Biopolitics of Security** Michael Dillon, 2015-02-11 Taking its inspiration from Michel Foucault this volume of essays integrates the analysis of security into the study of modern political and cultural theory Explaining how both politics and security are differently problematised by changing accounts of time the work shows how during the course of the 17th century the problematisation of government and rule became newly enframed by a novel account of time and human finitude which it calls factual finitude The correlate of factual finitude is the infinite and the book explains how the problematisation of politics and security became that of securing the infinite government of finite things It then explains how concrete political form was given to factual finitude by a combination of geopolitics and biopolitics Modern sovereignty required the services of biopolitics from the very beginning The essays explain how these politics of security arose at the same time changed together and have remained closely allied ever since In particular the book explains how biopolitics of security changed in response to the molecularisation and digitalisation of Life and demonstrates how this has given rise to the dangers and contradictions of 21st century security politics This book will be of much interest to students of political and cultural theory critical security studies and International Relations
