Suburban Shaman:

Suburban Shaman Cecil Helman, 2004 This title provides a rare and often funny insight into the life and encounters of a modest family doctor *Suburban Shaman* Cecil Helman, 2006-01-01 **The Life of a Galilean Shaman** Pieter F. Craffert, 2008-01-01 Historical Jesus research remains trapped in the positivistic historiographical framework from which it emerged more than a hundred and fifty years ago This is confirmed by the nested assumptions shared by the majority of researchers These include the idea that a historical figure could not have been like the Gospel portrayals and consequently the Gospels have developed in a linear and layered fashion from the authentic kernels to the elaborated literary constructions as they are known today The aim of historical Jesus research therefore is to identify the authentic material from which the historical figure as a social type underneath the overlay is constructed Anthropological historiography offers an alternative framework for dealing with Jesus of Nazareth as a social personage fully embedded in a first century Mediterranean worldview and the Gospels as cultural artifacts related to this figure The shamanic complex can account for the cultural processes and dynamics related to his social personage This cross cultural model represents a religious pattern that refers to a family of features for describing those religious entrepreneurs who based on regular Altered State of Consciousness experiences perform a specific set of social functions in their communities This model accounts for the wide spectrum of the data ascribed to Jesus of Nazareth while it offers a coherent framework for constructing the historical Jesus as a social personage embedded in his worldview As a Galilean shamanic figure Jesus typically performed healings and exorcisms he controlled the spirits while he also acted as prophet teacher and mediator of divine knowledge **Porpoises Rescue Dick Van Dyke** , **The Nature of Shamanism and the Shamanic Story** Michael Berman, 2009-03-26 The book makes out a case for the introduction of a new genre of tale the shamanic story which has either been based on or inspired by a shamanic journey or contains a number of the elements that are typical of such a journey The stories featured are the Book of Jonah from the Old Testament two traditional stories from the Republic of Georgia The Earth will take its Own and Davit a contemporary German tale Bundles and the Korean story of Shimchong the Blindman s Daughter By making use of textual material from a number of different cultures and times the intention is to highlight the pervasive influence shamanism has had and to show how the new genre being proposed is a universal one The research questions addressed include 1 defining what shamanism is deciding whether it should be classified as a religion a methodology or a way of life 2 considering whether a case can be made out for the introduction of a new genre of tale and if so what its characteristics are It is hoped the book will be of interest not only to those involved in the study of shamanism but also to those whose interest is in the study of literary texts Since the old bearers of shamanic traditions quite often were and even today are illiterate the study of their folklore epic songs laments narratives undoubtedly provides a rich source for research **The Shamanic Themes in Chechen Folktales** Michael Berman, 2009-03-26 All intellectuals driven by nationalist sentiments directly or indirectly are

always preoccupied with searching for the most ancient roots of their budding nations in order to ground their compatriots in particular soil and to make them more indigenous Znamenski 2007 p 28 In Chechnya as in the neighbouring countries of Georgia and Armenia these roots lie in shamanism and the stories in this collection clearly show this to be the case The history of the Nokhchii the name the Chechens have given themselves and their land is filled with rich and colourful stories which have survived for thousands of years through oral traditions that have been passed down generation by generation through clan elders However legends have blended with actual events so that the true history is difficult to write The 1994 1996 war destroyed most of Chechnya's treasured archaeological and historical sites though fortunately ancient burial sites architectural monuments and several prehistoric cave petroglyphs still remain in the mountains These valuable relics coupled with the histories and stories of the elders provide the people with virtually the only remaining evidence of who their ancient ancestors were This book contains both the texts of some of the tales and commentaries on them focusing in particular on their shamanic elements

Working with Spirit Jo Thobeka Wreford, 2008-05-01 In the current model of health dispensation in South Africa there are two major paradigms the spirit inspired tradition of izangoma sinyanga and biomedicine These operate at best in parallel but more often than not are

at odds with one another This book based on the author s personal experience as a practitioner of traditional African medicine considers the effects of the absence of spirit in biomedicine on collaborative relationships Given the unprecedented challenge of the HIV AIDS epidemic in the country the author suggests that more cooperation is vital Taking a critical look at the role of anthropology in this endeavor she proposes the development of a language of spirit by means of which the spirit inspired aetiology of izangoma sinyanga may be made comprehensible to academic scientists and applicable to medical interventions The author discusses white izangoma in the context of current debates on healing and hybridity and insists that there exists a powerful role for izangoma in the realm of societal healing Above all the book constitutes a start in what the author hopes will develop into an ongoing intellectual conversation between traditional African healing academe and biomedicine in South Africa
