Success in Referential Communication M.

Paul, 2013-03-09 One of the most basic themes in the philosophy of language is referential uptake viz the question of what counts as properly understanding a referring act in communication In this inquiry the particular line pursued goes back to Strawson's work on re-identification but the immediate influence is that of Gareth Evans It is argued that traditional and recent proposals fail to account for success in referential communication A novel account is developed resembling Evans' account in combining an external success condition with a Fregean one But in contrast to Evans greater emphasis is placed on the action enabling side of communication Further topics discussed include the role of mental states in accounting for communication the impact of re-identification on the understanding of referring acts and Donnellan's referential attributive distinction Readership Philosophers cognitive scientists and semanticists *Success in Referential Communication* Matthias

Language and Communication in Mental Retardation Sheldon

Rosenberg, Leonard Abbeduto, 2013-05-13 Research on language and communication development and intervention in persons with mental retardation has been conducted at a fast and furious pace during the last two decades Past attempts to summarize this research have been rather restricted focusing on a single narrowly defined substantive domain such as lexical development or of a single etiology such as Down Syndrome This volume in contrast presents a critical integrative review of research and theory on language development and processing across all domains and a variety of etiologies In addition many previous attempts to review portions of this research have failed to consider the research within the context of current theory and data from developmental psycholinguistics and linguistics A major contribution of this book is the emphasis on relevant work outside of mental retardation for understanding and treating the language and communication problems of persons with mental retardation Finally this book is comprehensive and up to date across all the areas of language covered including appropriate introductory material in linguistics and psychology discussions of the innateness cognition first and motherese views of normal language acquisition In addition the authors extensive bibliography is valuable in and of itself to any serious student or professional in the area

Second Language Educational Experiences for Adult Learners John M.

Norris, John McE. Davis, Veronika Timpe-Laughlin, 2017-04-21 Second Language Educational Experiences for Adult Learners provides an up to date review of the theory and practice of adult second language education The primary objective is to introduce core ideas that should inform the design development and delivery of language learning experiences that take the typical forms of materials courses teaching and assessment Divided into three sections the book first addresses what we know about adult second language acquisition and how individuals may acquire languages differently from each other In the second section key educational design elements from pedagogical methods to curriculum to assessment are then introduced

from the perspective of research based understandings about effective practices Rounding out the volume is an overview of critical issues for language educational innovation including supporting teachers localizing materials and instruction evaluating and improving education and working with technology Each chapter concludes with a set of recommended design principles that should guide readers toward high quality valuable and empirically supported language educational experiences This volume will be of interest to researchers and students investigating instructed language learning designers creating useful language learning materials and language teaching innovators seeking to improve outcomes in diverse instructional settings around the world

Communication Beth Bonniwell Haslett, 2013-12-16 First Published in 1987 This book provides an outline for a descriptive basis for the study of human communication by advocating a pragmatic approach to communication based on the study of language use in context It covers work on verbal communication in many disciplines and represents a variety of underlying assumptions and methods of analysis This book blends both European and North American scholarship for a broadly focused analysis in a form suitable for beginners and those looking to expand their established understanding

A Case for Psycholinguistic Cases Gabriela Appel, Hans W. Dechert, 1991-10-25 This volume comprises ten papers presented as plenary lectures on the occasion of the Second World Congress of the International Society of Applied Psycholinguistics ISAPL at the University of Kassel Germany from July 27-31 1987 The articles collected in this volume focus on the production comprehension and acquisition of languages from various empirical and theoretical points of view This volume is case based in that it does not claim to cover the full range of present day psycholinguistic enquiry It attempts though to make a case out of a representational variety of psycholinguistic phenomena which might provide a window on a unified theory of language production comprehension and acquisition From this perspective this volume aims at the presentation and discussion of various cases which through analogical reasoning may serve to shed light on and to solve new cases

Research in Clinical Pragmatics Louise Cummings, 2017-01-05 This is the first volume to present individual chapters on the full range of developmental and acquired pragmatic disorders in children and adults In chapters that are accessible to students and researchers as well as clinicians this volume introduces the reader to the different types of pragmatic disorders found in clinical populations as diverse as autism spectrum disorder traumatic brain injury and right hemisphere language disorder The volume also moves beyond these well established populations to include conditions such as congenital visual impairment and non Alzheimer dementias in which there are also pragmatic impairments Through the use of conversational and linguistic data the reader can see how pragmatic disorders impact on the communication skills of the clients who have them The assessment and treatment of pragmatic disorders are examined and chapters also address recent developments in the neuroanatomical and cognitive bases of these disorders

Sharing Thoughts José Luis Bermúdez, Matheus Valente, Víctor M. Verdejo, 2025-07-08 Philosophical work on the nature of thought has until recently focused primarily on what it is for an individual to think leaving aside important questions about the

intersubjective dimension of thought For example In what sense if any can thoughts really be shared Is there a shareability requirement on successful communication disagreement or the transmission of knowledge Do particular types of thought such as those based on perception or self location raise distinctive challenges to their shareability More generally how should we understand the communication and coordination of our thoughts in exchanges with others Are there distinctive rationality constraints governing the intersubjective aspects of thought Sharing Thoughts brings together original work by established and emerging philosophers to address these and related foundational issues while also paying attention to more specific questions such as the interplay between the intersubjectivity of thought and the internalism externalism debate the elucidation of first person or egocentric thought our capacity for joint thinking the conditions for knowledge transmission and collective inquiry the expression of thought in music and more
