Life Jane Ellen McAvoy,2009-07-01 Christianity centers on the life and death of Jesus as Christ Often Christians focus on the importance of Christ s Sacrifice as the means of human salvation and the faithful are encouraged to imitate this suffering through self sacrifice and self denial More than a few Christians particularly women have found such encouragement to self sacrifice to be a means for continuing oppression men over women colonizers over the colonized the powerful over the powerless In *The Satisfied Life* Jane McAvoy constructs a feminist theology of atonement or satisfaction for sin that draws on the insights of six medieval women mystics Julian of Norwich Mechthild of Magdeburg Hildegard of Bingen Margery Kempe Hadewijch of Brabant and Catherine of Siena These Christian writers reveal alternatives to a theology of oppression Salvation for them means experiencing the death and resurrection of Christ not as life denying but as a life affirming celebration of God s love for us through the sustaining love of Jesus

Walls,Gregory Bassham,2007-03-09 What can the film Hoosiers teach us about the meaning of life How can ancient Eastern wisdom traditions such as Taoism and Zen Buddhism improve our jump shots What can the Zen Master Phil Jackson and the Big Aristotle Shaquille O Neal teach us about sustained excellence and success Is women s basketball better basketball How ethically should one deal with a strategic cheater in pickup basketball With NBA and NCAA team rosters constantly changing what does it mean to play for the same team What can coaching legends Dean Smith Rick Pitino Pat Summitt and Mike Krzyzewski teach us about character achievement and competition What makes basketball such a beautiful game to watch and play Basketball is now the most popular team sport in the United States each year more than 50 million Americans attend college and pro basketball games When Dr James Naismith the inventor of basketball first nailed two peach baskets at the opposite ends of a Springfield Massachusetts gym in 1891 he had little idea of how thoroughly the game would shape American and international culture Hoops superstars such as Michael Jordan LeBron James and Yao Ming are now instantly recognized celebrities all across the planet So what can a group of philosophers add to the understanding of basketball It is a relatively simple game but as Kant and Dennis Rodman liked to say appearances can be deceiving Coach Phil Jackson actively uses philosophy to improve player performance and to motivate and inspire his team and his fellow coaches both on and off the court Jackson has integrated philosophy into his coaching and his personal life so thoroughly that it is often difficult to distinguish his role as a basketball coach from his role as a philosophical guide and mentor to his players In *Basketball and Philosophy* a Dream Team of twenty six basketball fans most of whom also happen to be philosophers proves that basketball is the thinking person s sport They look at what happens when the Tao meets the hardwood as they explore the teamwork patience selflessness and balanced and harmonious action that make up the art of playing basketball *Stumbling on Wins (Bonus Content Edition)* David Berri,Martin Schmidt,2010-01-08 The next quantum leap beyond *Moneyball* this book offers powerful new insights into all human decision making because if sports teams are getting it wrong this badly how do you know you re not Sometimes the decisions that teams make are simply inexplicable Consider sports teams have an immense amount of detailed quantifiable

information to draw upon more than in virtually any other industry They have powerful incentives for making good decisions Everyone sees the results of their choices and the consequences for failure are severe And yet they keep making the same mistakes over and over again systematic mistakes you d think they d learn how to avoid Now two leading sports economists reveal those mistakes in basketball baseball football and hockey and explain why sports decision makers never seem to learn their lessons You ll learn which statistics are connected to wins and which aren t and which statistics can and can t predict the future Along the way David Berri and Martin Schmidt show why a quarterback s place in the draft tells you nothing about how he ll perform in the NFL why basketball decision makers don t focus on the factors that really correlate with NBA success why famous coaches don t deliver better results and much more
