Muses India Chetan Deshmane, 2013-05-04 With Salman Rushdie Arundhati Roy Jhumpa Lahiri V S Naipaul and Kiran Desai winning prestigious awards for their literary output Indian English literature has gained a voice of its own Yet as most readers of criticism of it agree there is a dearth of serious examination of its authors and their work This collection of essays attempts a contrapuntal reading of Indian English literature with what Ranjan Ghosh calls the infusionist approach Since a majority of readers are made to stay away from a branded author or work this book rejects any categorization such as postcolonial or Commonwealth It deals with a wide range of issues which human beings suffer from all over the world including those that may not have anything to do with the politicized side of the postcolonial or the Commonwealth

Prizing Literature Gillian Roberts, 2011-10-29 When Canadian authors win prestigious literary prizes from the Governor General's Literary Award to the Man Booker Prize they are celebrated not only for their achievements but also for contributing to this country's cultural capital Discussions about culture national identity and citizenship are particularly complicated when the honorees are immigrants like Michael Ondaatje Carol Shields or Rohinton Mistry Then there is the case of Yann Martel who is identified both as Canadian and as rootlessly cosmopolitan How have these writers identities been recalibrated in order to claim them as representative Canadians Prizing Literature is the first extended study of contemporary award winning Canadian literature and the ways in which we celebrate its authors Gillian Roberts uses theories of hospitality to examine how prize winning authors are variously received and honoured depending on their citizenship and the extent to which they represent Canadianness Prizing Literature sheds light on popular and media understandings of what it means to be part of a multicultural nation

Deconstructing the Stereotype: Reconsidering Indian Culture, Literature and Cinema Kaustav Chakraborty, 2014-04-01 Stereotypes are mere pictures in our heads Prejudice and suspicion against all that is perceived of as different give rise to cultural stereotypes Creating stereotypes also involves connecting the created categories with values equipping the categories with an ideational label Thus stereotypes often contain the presupposition that one's own group represents the normal or even universal and that one's own culture and its socially construed concepts of reality is superior and normative in relation to other cultures and world views The stereotypes are not just one person's private attitude but are always shared with a larger socio cultural group Stereotypes result in simplifications that prevent people from seeing the otherized individuals as they truly are This book aims at transgressing the boundaries of the strategically generated stereotyped image of a homogenous Indian culture Rather by highlighting the marginalised issues related to class caste and gender this book by citing examples of select Indian literary and cinematic representations argues that the stigma related to the non conformist alternative minority identities is baseless and fraudulent

ROHINTON MISTRY'S FICTION: A SOCIO-CULTURAL STUDY Dr. Umar Farooque, 2019-10-10. Rohinton Mistry is an important Indian English fiction writer. He is a Parsi writer of Indian Diaspora in Canada. There are two factors which entitle him to be called Indian writer in English and his works to be studied as Indian literature in English despite the fact that he migrated to Canada in 1975, much before the publication of his first book, a short story collection *Tales from Firozsha Baag* in 1987. The fact that Mistry, being born, brought up and educated in India, his novels and most of his short stories are thoroughly Indian in theme and language are these factors which make him an Indian writer in English. *The Last Kids on Earth: June's Wild Flight* Max Brallier, 2020-04-07. Postcolonial Realism and the Concept of the Political Eli Park Sorensen,2021-04-28 As the scholarly world attunes itself once again to the specifically political this book rethinks the political significance of literary realism within a postcolonial context Generally postcolonial studies has either ignored realism or criticized it as being na ve anachronistic deceptive or complicit with colonial discourse in other words incongruous with the postcolonial This book argues that postcolonial realism is intimately connected to the specifically political in the sense that realist form is premised on the idea of a collective reality Discussing a range of literary and theoretical works Dr Sorensen exemplifies that many postcolonial writers were often faced with the realities of an unstable state a divided community inhabiting a contested social space the challenges of constructing a notion of the people often out of a myriad of local communities with different traditions and languages brought together arbitrarily through colonization The book demonstrates that the political context of realism is the sphere or possibility of civil war divided societies and unstable communities Postcolonial realism is prompted by disturbing political circumstances and it gestures toward a commonly imagined world precisely because such a notion is under pressure or absent
