Suffering Religion:

Human Suffering and the Evil of Religion Dennis Jensen, 2018-01-25 Dennis Jensen looks at two very important problems that have led many to reject religious belief generally and Christianity in particular Why has God allowed the extreme suffering we find in our world And Can religion be blamed for much of this suffering He looks at not only the evil so often associated with religions inquisitions holy wars pogroms witch hunts but also some of the difficulties found specifically in the Bible Did the God of the Bible command or advocate mass murder homophobia slavery Is the New Testament anti Semitic Jensen argues persuasively that a fully biblical teaching does not advocate subservience of women in today s society church or family It does not condemn all same gender sexual relations or transgender identity It does not teach an eternal hell As just one of the many fascinating topics he tackles one of the more important biblical reasons suggested for the existence of evil is that God wants to know whether we will seek to stop or alleviate the suffering we see whether we will learn to have God s heart whether we will hate evil and anguish over the hurting as God does **Suffering Religion** Robert Gibbs, Elliot R. Wolfson, 2002 Themes covered include philosophy s own failure to treat suffering seriously with special reference to the Jewish tradition Martin Buber s celebrated interpretations of scriptural suffering suffering in Kristevan psychoanalysis focusing on the Christian theology of the cross the pain of childbirth in a home setting as a religiously significant choice God s primal suffering in the kabbalistic tradition and incarnation as a gracious willingness to suffer Jacket *Suffering and Evil* W. S. F. Pickering, Massimo Rosati, 2012 Until recently the subject of suffering and evil was neglected in the sociological world and was almost absent in Durkheimian studies as well This book aims to fill the gap with particular reference to the Durkheimian tradition by exploring the different meanings that the concepts of evil and suffering have in Durkheim s works together with the general role they play in his sociology It also examines the meanings and roles of these concepts in relation to suffering and evil in the work of other authors within the group of the *Ann e sociologique* up until the beginning of World War II Finally the Durkheimian legacy in its wider aspects is assessed with particular reference to the importance of the Durkheimian categories in understanding and conceptualizing contemporary forms of evil and suffering **The Languages of Religion** Sipra Mukherjee, 2018-06-14 This book analyses the power that religion wields upon the minds of individuals and communities and explores the predominance of language in the actual practice of religion Through an investigation of the diverse forms of religious language available oral traditions sacred texts evangelical prose and national rhetoric used by faith insiders such as missionaries priests or religious leaders who play the communicator s role between the sacred and the secular the chapters in the volume reveal the dependence of religion upon language demonstrating how religion draws strength from a past that is embedded in narratives infusing the sacred language with political power The book combines broad theoretical and normative reflections in contexts of original detailed and closely examined empirical case studies Drawing upon resources across disciplines the book will be of interest to scholars of religion and religious studies linguistics

politics cultural studies history sociology and social anthropology *The Cambridge History of Atheism* Michael Ruse, 2021-09-16 The two volume Cambridge History of Atheism offers an authoritative and up to date account of a subject of contemporary interest Comprised of sixty essays by an international team of scholars this History is comprehensive in scope The essays are written from a variety of disciplinary perspectives including religious studies philosophy sociology and classics Offering a global overview of the subject from antiquity to the present the volumes examine the phenomenon of unbelief in the context of Christian Islamic Buddhist Hindu and Jewish societies They explore atheism and the early modern Scientific Revolution as well as the development of Charles Darwin s theory of evolution and its continuing implications The History also includes general survey essays on the impact of scepticism agnosticism and atheism as well as contemporary assessments of thinking Providing essential information on the nature and history of atheism The Cambridge History of Atheism will be indispensable for both scholarship and teaching at all levels Women and the Value of Suffering Kristine M. Rankka, 1998 Kristine Rankka has produced a masterpiece an insightful analysis of modern feminist interpretations of radical or tragic suffering Here is a mature work comprehensive in its breadth compelling in its argument moving in its palpable sensitivity poetic and graceful in its articulation By invoking the category of the tragic Rankka proposes a mystical political spirituality to move reflection on suffering from the private to the communal interdependent realm Rankka s Women and the Value of Suffering is a creative retrieval of a conversation among women long in progress about the meaning of life s suffering It is eminently readable and thoroughly enriching George E Griener S J Academic dean Jesuit School of Theology at Berkeley **Suffering in the World** Augustin Kassa, S.M.A., 2019-04-26 The undeniable reality of suffering in the world often leaves humanity perplexed about its source The struggle to make sense of pain usually leaves people wondering what they have done to merit the agony of suffering It is hence not bizarre to hear a person in suffering ask What wrong have I done to be suffering this much Why is God punishing me It is not uncommon to hear some people like Edward Schillebeeckx exempt God from any responsibility in the suffering of humanity Shillebeeckx unequivocally suggests that God is not responsible for the suffering of humanity just as he wasn t responsible for the suffering of his Son more than two thousand years ago In his words No one should ascribe to God what has in fact been done to Jesus by the history of human injustice But how can a tragic event like the death of the Son of God and by extension suffering in the world be laid solely on the shoulders of humanity Doesn t putting the responsibility of pain and suffering in the world on humanity rob God of his all powerful nature To avoid this quandary vis vis the nature of God classical theologians like St Augustine and St Thomas Aquinas proposed the principle of the two evils that is evil suffered and evil done They also maintained that while God may not be responsible for pain and suffering in the world he certainly does permit or allow it for a greater good If God only permits or allows suffering what do we make of Marthe Robin s experience that suggests that the Risen Lord God the Son appeared to her asking her Do you want to be like me And upon the question made her live the suffering and pain and

carry the wounds of the Crucified Lord According to her she was the little victim of the Lord **Beyond Theodicy** Sarah K. Pinnock, 2012-02-01 Beyond Theodicy analyzes the rising tide of objections to explanations and justifications for why God permits evil and suffering in the world In response to the Holocaust striking parallels have emerged between major Jewish and Christian thinkers centering on practical faith approaches that offer meaning within suffering Author Sarah K Pinnock focuses on Jewish thinkers Martin Buber and Ernst Bloch and Christian thinkers Gabriel Marcel and Johann Baptist Metz to present two diverse rejections of theodicy one existential represented by Buber and Marcel and one political represented by Bloch and Metz Pinnock interweaves the disciplines of philosophy of religion post Holocaust thought and liberation theology to formulate a dynamic vision of religious hope and resistance **Hegel: Lectures on the Philosophy of World History, Volume I** , 2011-04-07 This edition makes available an entirely new version of Hegel s lectures on the development and scope of world history Volume I presents Hegel s surviving manuscripts of his introduction to the lectures and the full transcription of the first series of lectures 1822-23 These works treat the core of human history as the inexorable advance towards the establishment of a political state with just institutions a state that consists of individuals with a free and fully developed self consciousness Hegel interweaves major themes of spirit and culture including social life political systems commerce art and architecture religion and philosophy with an historical account of peoples dates and events Following spirit s quest for self realization the lectures presented here offer an imaginative voyage around the world from the paternalistic static realm of China to the cultural traditions of India the vast but flawed political organization of the Persian Empire to Egypt and then the Orient and the birth of freedom in the West to the Christian revelation of free political institutions emerging in the medieval and modern Germanic world Brown and Hodgson s new translation is an essential resource for the English reader and provides a fascinating account of the world as it was conceived by one of history s most influential philosophers The Editorial Introduction surveys the history of the texts and provides an analytic summary of them and editorial footnotes introduce readers to Hegel s many sources and allusions For the first time an edition is made available that permits critical scholarly study and translates to the needs of the general reader Strange New World Carl R. Criticism of Earth Roland Boer,2012-06-08 Criticism of Earth thoroughly reassesses Marx and Engels s engagement with theology drawing on largely ignored texts Thus alongside opium of the people Hegel s philosophy of law and the Feuerbach theses other works are also central These include Marx s early pieces on theology continual transformations of fetishism and lengthy treatments of Bruno Bauer and Max Stirner Engels too is given serious attention since he moved beyond Marx in appreciating theology s revolutionary possibilities Engels s Calvinism is discussed his treatments of biblical criticism and theology and his later writings on early Christianity s revolutionary nature The book continues the project for a renewed and enlivened interaction between Marxism and religion being the fourth of five volumes in the Criticism of Heaven and Earth series *Nietzsche's Struggle against Pessimism* Patrick Hassan,2023-11-16 A detailed account of Nietzsche s

critique of pessimism is elucidated in its appropriate historical context disentangling its various strands **Culture, Brain, and Analgesia** Mario Incayawar,Knox H. Explorations in Classical Sociological Theory Kenneth Allan, 2005-01-12 Rather than a work of theory itself Explorations in Classical Sociological Theory Seeing the Social World is an insightful work that invites students to think creatively reflexively and critically about their social worlds Written in a conversational tone that lifts the veil of theoretical jargon Explorations in Classical Sociological Theory introduces students to the major classical theorists including Marx Spencer Durkheim Weber Simmel Mead Schutz Gilman and Du Bois This text focuses on the individual perspective of each theorist rather than schools of thought and uses the provocative ideas of modernity and postmodernity to help students understand how the theoretical historical perspectives apply to their own time period *Why Resurrection?* Carlos Blanco, 2011-03-11 Few questions exert such a great fascination on human conscience as those related to the meaning of life history and death The belief in the resurrection of the dead constitutes an answer to a real challenge What is the meaning of life and history in the midst of a world in which evil injustice and ultimately death exist Resurrection is an instrument serving a broader more encompassing reality the Kingdom of God Such a utopian Kingdom gathers the final response to the problem of theodicy and to the enigma of history This book seeks to understand the idea of resurrection not only as a theological but also as a philosophical category as expression of the collective aspirations of humanity combining historical theological and philosophical analyses in dialogue with some of the principal streams of contemporary Western thought **Marx and the Political Economy of the Media**, 2015-09-29 More than 130 years after Karl Marx's death and 150 years after the publication of his opus magnum Capital Critique of Political Economy capitalism keeps being haunted by period crises The most recent capitalist crisis has brought back attention to Marx's works This volume presents 18 contributions that show

how Marx's analyses of capitalism the commodity class labour work exploitation surplus value dialectics crises ideology class struggles and communism help us to understand media cultural and communications in 21st century informational capitalism Marx is back This book is a key resource on the foundations of Marxist Media Cultural and Communication Studies

Evoking Lament Eva Harasta, Brian Brock, 2009-10-10 Harasta and Brock show how lament seems to introduce notes of mistrust into an otherwise confident relationship with faith God and His will In prayer all experiences may be brought to God in openness and trust Yet lament seems to introduce notes of mistrust into a relationship properly characterized by confident faith in God and His will Sustained attention to lament presents a challenge to theological reflection in reminding it of the acuteness of the experience of suffering and evil This volume suggests that a robust concept and practice of lament is an appropriate response to questions of evil and suffering in its refusal to close off questions that cannot and should not be closed Lament takes place in the eye of the storm of theodicy and when the distinct content of Christian lament is discovered here the question of theodicy is transformed The first section reflects on the anthropological conditions of lament describing it as a hermeneutic for negotiating adverse experiences that transcends the simple opposition of innocent suffering and guilt The second section reflects on why and how lament has faded from modern theological thought that is over reliant on systematic accounts of evil and whose abstractions have drifted free of religious experience The third section develops an understanding of trust that includes expressions of lament while not sanitizing its rawness The final section inquires after the distinct Christian profile of lament Lament even as an experience of isolation stands within the believing community and its traditions Moreover because Christian lament is based on Christ's passion and resurrection Christ endorses and shapes the believers lament as he shapes their praise
