places that are relevant will also be described and general directions on how to get them included Cambridgeshire at War 1939-45 Glynis Cooper,2020-03-20 Few could believe that within twenty years of the war to end all wars being won the world was once again at war Veterans of the Great War feared going through the same thing again and even worse many knew that this time their children would also be involved in the fighting What had all the sacrifice been about Cambridgeshire the city of Cambridge and the University of Cambridge were badly hit by the Great War with many lives lost families ripped apart and a way of life that had changed forever Building and economic recovery had been hindered by the Great Depression The county was not ready to face another war nor for the problems of warfare in the air Yet somehow the county the city and the university all found the strength to unite against the enemy once more and ensure that Germany would never win the war The book chronicles life on the Home Front during the Second World War which itself reached into every home and affected every citizen changing the life and the face of the county It is also a timely reminder of the difficulties hardships restrictions and morale faced by the city as the war dragged on and how the local community overcame the odds that were stacked against them Suffolk's Defended Shore Cain Hegarty,Sarah Newsome,2014-06-30 Suffolk s Defended Shore presents an illustrated history of the development of military defences on the Suffolk coast using data collected as part of the English Heritage national survey The survey involved the examination of both modern and historic aerial photographs which led to the creation of a detailed map of the archaeological remains on the county s coast The results of the survey are dominated by evidence for the military defence of the coast reflecting the importance of the Suffolk coast in national defence strategies over many years Extensively illustrated this book highlights the particular importance of historic aerial photographs which provide a different and unique perspective on the coastal defences constructed in World War II Photographs taken during and immediately after this war sometimes provide the only visual record of the rapidly evolving defences from this period UK Airfields Past and Present Grant Peerless,2020-10-04 A great many books have been written over the years about individual airfields or those in particular counties areas but this one covers a good proportion of them in one publication from Abbots Bromley to Zeals It provides brief details of over 1700 airfields from before the First World War to the present day and describes the main activities carried out based units operators and current status It includes military bases civil airports airfields gliding sites microlight sites and larger farm strips together with the probable number of based aircraft An appendix lists over 500 books which have been published about individual airfields and this together with the details provided in this book affords a convenient source of reference for further research It does not pretend to include every flying site that ever existed as this would require a much larger volume but covers what are considered to be the most significant airfields of the past 110 years It includes over one hundred photographs in colour and black white most of which have not been published previously *Suffolk Records Society* ,1958 **In the Hands of Strangers** Kim Moretto Niemeier,2016-11-07 On June 12 1944 six days after the D Day invasion of Normandy U S fighter

Mr Brown's War Helen D Millgate,2011-10-21 Richard Brown kept a personal diary throughout the whole of the Second World War He used it to record the course of the conflict as he perceived it gleaned from the newspapers the wireless and hearsay As well as describing the development of the war Brown captured a vivid image of life in wartime Britain with rationing blackout restrictions interrupted sleep the prospect of evacuation and the enormous burden placed on civilians coping with a full time job as well as war work Richard Brown was a well informed man who made his own judgements His attitude to the war is fascinating as he never doubts ultimate victory despite being impatient and critical of the conduct of the war His observations range from the pithy to the humorous and scathing Above all his diaries reflect the moral and social attitudes of the period and the desire to be fully involved in the war effort They also totally refute the argument that the British public were kept in the dark

Staffordshire Airfields in the Second World War Martyn Chorlton,2007 Martyn Chorlton s book describes the history of each airfield highlights some of the operations carried out from them and puts them into the overall context of a country and nation at war It will appeal equally to aviation enthusiasts and to readers who recall the era when the country s skies never ceased to throb with the drone of departing and returning aircraft Jacket *Fighter Bases of WW II US 8th Army Air Force Fighter Command USAAF, 1943-45* Martin W.

Manston Rochford North Weald Martlesham Heath Stapleford Tawney Debden and Northolt The most famous of The Few saw action in this vital airspace over southern England London and the Home Counties The book will give an overview of the Battle and then go on to describe the part played by the squadrons and pilots from each base between the dangerous period between 10 July and 31 October 1940 It will include a map of each airfield as it was then and a guide to what remains and places of significance nearby that can be visited today Got Any Gum Chum? Helen D Millgate,2009-04-30 When the first American servicemen arrived in England in March 1942 the indigenous population greeted their presence with mixed feelings A certain level of resentment of these newcomers was harboured by the English and expressed by many in the in the well worn phase of the time over paid over sexed and over here But without the presence of American servicemen in Britain and its huge military and industrial muscle the war with Germany would probably have been lost Using a combination of contemporary eyewitness and documentary sources plus latter day interviews linked together by engaging narrative Helen Milligate takes a look at the background to the friendly invasion where they all came from who they were where they were stationed and what they did She examines how the Yanks got on with the locals how they fitted in or didn't their impact on the social structure of England in the 1940s the problems they brought with them and their impressions of England She concludes with the journey home once the war in Europe had ended describing what the Yanks left behind them and the wives and sweethearts they took stateside *100 Group (Bomber Support)* Martin W. Bowman,2006-11-27 A history of the British RAF division in Norfolk dedicated to radio countermeasures during WWII As part of the AHT series the airfields and interest in this book are concentrated in a particular area in this case Norfolk The growing importance of the electronic war in the air in 1943 caused the creation of 100 Group to fly both defensive and offensive sorties employing highly secret Radio Counter Measure equipment The Group flew from airfields at Foulsham Great Massingham Little Snoring North Creak Swannington and West Raynham The aircraft flown were Halifax Beaufighter Mosquito and Fortress The Group included RAF Squadron numbers 192 169 23 171 199 214 157 85 141 and 239 100 Group Bomber Support looks at the history and personalities associated with each base and what remains today exploring the favorite local wartime haunts where aircrew and ground crew would have sought well deserved entertainment and relaxation Other museums and places that are relevant will also be described and general directions on how to get them included **The Royal Air Force: The Trenchard Years, 1918-1929** Ian M. Philpott,2005-07-19 The inter war years between 1918 and 1939 saw the newly created Royal Air Force fighting for its very existence politically being dispatched to the remotest corners of the British Empire and its Protectorates in various policing roles and then finally engaged in a headlong rush to modernize in the face of the new German Fascist regime that was threatening British and European freedom Yet this important period in RAF history and its effect on political and military rationale during the period has never been completely documented This exhaustive and comprehensive reference is the most detailed work to be published on the subject The author gives full information on the changing

structure of the Force during the period squadron operations political machinations and their effects the airplanes and their equipment the personnel technical advances in navigation and breakthroughs achieved in engine performance The book is cross referenced throughout extremely well illustrated and contains an abundance of location maps and other diagrams This book will become a Bible for anyone interested in the history of the RAF This work has been reviewed by personnel at the RAF Historical Branch who praise it

Men at War Luke Turner, 2023-04-27 As the Second World War moves beyond living memory and its last veterans leave us we are in danger of losing our opportunity to understand the reality behind the conflict's myths machines and iconography From filmmakers writers artists and ordinary people including his own family members Luke Turner assembles a broad cast of characters to bring this much mythologised conflict to life There are conscientious objectors a bisexual Commando a transgender RAF pilot and those who simply did what they could to survive and return home to a complicated peace By exploring a wartime experience that embraces sex lust and the body as much as tactics and weaponry Turner argues that the only way we can really understand the Second World War is to get to grips with the complexity of the lives and identities of those who fought and endured it

The Battle of the Fields Brian Short, 2014 This book will appeal not only to historians and geographers but to many who maintain a deep interest in the British countryside and its past and to those who continue to share a fascination for the Second World War in particular the home front The Battle of the Fields tells the story of rural community and authority in Britain during the Second World War by looking at the County War Agricultural Executive Committees From 1939 they were imbued with powers to transform British farming to combat the loss of food imports caused by German naval activity and initial European mainland successes Their powers were sweeping and draconian When fully exercised against recalcitrant farmers dispossession in part or whole could and did result This book includes the most detailed analysis of these dispossessions including the tragic case of Ray Walden the Hampshire farmer who was killed by police after refusing to leave his farmhouse in 1940 The committees were deemed successful by Whitehall as harbingers of modernity mechanization draining artificial fertilizers reclamation of heaths marshes and woodlands We now deplore some of these changes but Britain did not starve in large part thanks to their efforts This book will appeal not only to historians and geographers but to many who maintain a deep interest in the British countryside and its past and to those who continue to share a fascination for

the Second World War in particular the home front It will also demonstrate to all who are anxious about food security in the modern age how this question was dealt with 70 years ago BRIAN SHORT is Emeritus Professor of Historical Geography at the University of Sussex and formerly Dean of School and Head of the Department of Geography
