Poetic Voice of Ana Rossetti Robert Simon, 2023-05-15 This study spanning c 1980 to 2016 offers an alternative critical perspective of the poetic works of the acclaimed Spanish poet Ana Rossetti At its core it explores the presence of Posthumanism and the mystical in late 20th and early 21st Century Iberian poetics and more specifically how Rossetti s more recent poetry expresses the same tendency toward a transcultural and posthuman model that is simultaneously essentialist and deconstructive The books examines modern Iberian mysticism as found in the works of such authors as Blanca Andreu Clara Jan's and Joaquim Pessoa Verg lio Alberto Vieira among others Such poetic works establish themselves within a unique framework of mystical illumination which itself incorporates elements of late postmodern deconstruction and more recently a criticism of the posthuman condition as analyzed in critical works on the subject Romanticism and Esoteric Tradition Paul Davies, Senior Research Fellow in the Centre for Commercial Law Paul Davies, 1998-02-15 Spititual quest is at the very heart of poetry but in the materialistic climate of the late twentieth century this has been almost forgotten even by those claiming to be experts in interpreting literature How does the worldview common to the main esoteric traditions of East and West correspond to the aims of such Romantic poets as Shelley Keats Blake Coleridge and Wordsworth In Romanticism and Esoteric Tradition Paul Davies maintains that only in the light of the spiritual teachings of these traditions can the poetry and thinking of the Romantics be understood as they intended This is one of the first books to connect the creative nature of poetry to the core teachings of the esoteric tradition and thereby to bring out the true meaning of several Romantic writers whose works have been trivialized by a culture that has marginalized the spiritual and tied itself to material historical and social issues The author also shows that the Romantics were the first Western poets to imagine the relationship of the self to the environment as personal encounter In this sense the Romantics were recalling a long held secret of the esoteric human sciences not inventing a new one This book brings the deepest interests of the Romantics directly into contact with issues Islamic Civilization in South Asia closest to present day students of the spiritual traditions and holistic perspectives Burjor Avari, 2013 Muslims have been present in South Asia for 14 centuries Nearly 40% of the people of this vast land mass follow the religion of Islam and Muslim contribution to the cultural heritage of the sub continent has been extensive This textbook provides both undergraduate and postgraduate students as well as the general reader with a comprehensive account of the history of Islam in India encompassing political socio economic cultural and intellectual aspects Using a chronological framework the book discusses the main events in each period between c 600 CE and the present day along with the key social and cultural themes It discusses a range of topics including How power was secured and how was it exercised The crisis of confidence caused by the arrival of the West in the sub continent How the Indo Islamic synthesis in various facets of life and culture came about Excerpts at the end of each chapter allow for further discussion and detailed maps alongside the text help visualise the changes through each time period Introducing the reader to the issues concerning the Islamic past of South Asia the book is a useful text for students and scholars of South Asian History and Religious Studies

Blanca Andreu, Galicia, and the New Iberian Mysticism Robert Simon, 2019-01-15 This book contributes to the ongoing discussion of the place of contemporary Galician writer Blanca Andreu s work within the 1980s post nov simo movement as part of a larger resurgence of the Surrealist in Spanish poetry and its possible placement in the more recent mystical poetry of Spain It provides a detailed textual analysis of her poetry and in doing so reveals not only that her work encompasses notions of the surreal and the mystical but also although Andreu has so far written entirely in Castilian Spanish that her poetry utilizes a variety of traditional Galician and Portuguese symbols and images In this way her work challenges the boundaries between what we as readers may accept as a solely Castilian Galician or Spanish poetic It bases its transtheoretical framework on findings from such fields as Galician studies Iberian studies mysticism studies paradigm shift studies and regional studies over the past two decades Ultimately this comprehensive and unique study shows how Andreu s multifaceted transnational work may pertain to and expand our knowledge of each of these areas of focus History of Encyclopaedia of Science and Philosophy of Science Pradip Kumar Sengupta, 2010 Indian Books in Print, 2003 Sufism: Early Sufi literature Masood Ali Khan, S.
