and to abide by it but also attempted to practice God's word and to develop techniques of language intended to render their own tongues as the organs of continuous revelation. As their critics would contend, however, the Roshaniyya attempted to make language do something that language should not do: infuse the semiotic with the divine. Their story thus ends in a tower of skulls, the proliferation of heresiographies that detailed the sins of the Roshaniyya and new formations of Afghan identity. In *Singing with the Mountains*, William E. B. Sherman finds something extraordinary about the Roshaniyya, not least because the first known literary use of vernacular Pashto occurs in an eclectic Roshani imitation of the Qur'an. The story of the Roshaniyya exemplifies a religious culture of linguistic experimentation. In the example of the Roshaniyya, we discover a set of questions and anxieties about the capacities of language that pervaded Sufi orders, imperial courts, groups of wandering ascetics, and scholastic networks throughout Central and South Asia. In telling this tale, Sherman asks the following questions: How can we make language shimmer with divine truth? How can letters grant sovereign power and form new ethnic identities and ways of belonging? How can rhyme bend our conceptions of time so that the prophetic past comes to inhabit the now of our collective moment? By analyzing the ways in which the Roshaniyya answered these types of questions and the ways in which their answers were eventually rejected as heresies, this book offers new insight into the imaginations of religious actors in the late medieval and early modern Persianate worlds. **Routledge Handbook on Sufism** Lloyd

Ridgeon, 2020-08-09 This is a chronological history of the Sufi tradition, divided into three sections: early, middle, and modern periods. The book comprises 35 independent chapters with easily identifiable themes and/or geographical threads, all written by recognised experts in the field. The volume outlines the origins and early developments of Sufism by assessing the formative thinkers and practitioners and investigating specific pietistic themes. The middle period contains an examination of the emergence of the Sufi Orders and illustrates the diversity of the tradition. This middle period also analyses the fate of Sufism during the time of the Gunpowder Empires. Finally, the end period includes representative surveys of Sufism in several countries, both in the West and in traditional Islamic regions. This comprehensive and up-to-date collection of studies provides a guide to the Sufi tradition. The Handbook is a valuable resource for students and researchers with an interest in religion.

Islamic Studies and Middle Eastern Studies The Hindu Sufis of South Asia Michel Boivin, 2019-09-05 Within the complex religious landscape of modern India, the community of Sindh stands out as a powerful example of interfaith relations. This Hindu community moved to India and practiced Sufism following Sindh's inclusion to Pakistan in the 1947 partition. Drawing on a close analysis of literature and poetry, interviews with key informants, and a reading of historic rituals and architectures, Michel Boivin demonstrates that this active religious minority has managed to retain its unique Hindu Sufi identity amidst the rigidification of official religions in both India and Pakistan. Of particular significance, Boivin argues, was the creation of sacred spaces called *darbars*. These shrines include a religious building where the Hindu Sindhis worship Sufi saints, chant Sufi poetry, and perform Sufi rituals. In looking at this vibrant community as a trans-religious culture capable of navigating
