Recognizing Sufism Arthur F. Buehler, 2016-08-31 Sufism is all too often associated just with mysticism in the West The author of this new textbook a former pupil of Annemarie Schimmel suggests that conflating Sufism and mysticism is only partially valid He shows that the vast majority of Sufi practice both historically and in the contemporary world has little or nothing to do with a esoteric transcendence but is rather focused on contemplative activity Such practice might involve art music devotional shrine visitation even politics and psychology Placing Sufism in a wider Islamic contemplative context enables Arthur F Buehler to examine Sufi history as well as current application against a backdrop that is richer and more inclusive than that portrayed in many competing introductory surveys Discussing the origins of Sufism the development of Sufi lineages via three founder figures Sufi lodges and the role of Sufism in colonial resistance Sufi poetry Sufi shrines and Sufism in the West the author rescues his topic from the idea that it means only union with the divine In this original new treatment Sufism emerges as complex and multi layered

The Foundations of Sufism Ghulam Shams-ur-Rehman, 2024-12-09 Ahmad Zarruq a 15th century North African Sufi turned his considerable intellect towards integrating theology Islamic law and the spiritual path His model of a jurisprudentially grounded Sufism is

as relevant today as when he presented it to a mediaeval audience using an aphoristic style tailored to his educated readership The current growth of puritanical movements in the Islamic world makes Zarruq's *The Foundations of Sufism* a must read for scholars educators and those seeking to reconcile various interpretations of the faith The author of this fresh translation an Arabic and Classical Sufism scholar consulted newly discovered manuscripts in preparing his critical edition of this seminal work

Principles of Islamic Psychology Farid Younos, 2017-05-09 Psychology is the study of mind and this is exactly why the Quran put a great emphasis between the relationship of man and his Creator and the role faith plays intellectually and spiritually in our lives The Quran is a book of wisdom and it includes all aspects of human life Religion as a matter of fact is an intellectual property that cannot be seen So the mind cannot be seen Human beings are curious creatures This curiosity elaborated in the story of Abraham when he wanted to find the truth for himself Finding the truth is a principle of science and research Islamic psychology is based on three principles namely theo ethics socio ethics and psyco ethics which discusses human relations from a psychological point of view It is the mind that relates to all aspects of life Therefore Islamic psychology deals with all spheres that originate from God alone For that ego or self plays a major role and makes mankind responsible for all his actions Since Islam is a religion of unity then all processes of mind interrelate to not only self but also to God and society Therefore like any other field of knowledge it is hard to separate psychology or the study of mind from other life principles As a matter of fact it is the mind that regulates other affairs being good or bad Islamic psychology emphasizes on making humans responsible for their inner soul activities which lead either to felicity or destruction Since religion is an intellectual property then the study of mind is also a spiritual and intellectually property

Contextualization of Sufi Spirituality in Seventeenth- and Eighteenth-Century China David Lee, 2016-07-28 Liu Zhi c1662 c1730 a well known Muslim scholar writing in Chinese published outstanding theological works short treatises and short poems on Islam While traditional Arabic and Persian Islamic texts used unfamiliar concepts to explain Islam Liu Zhi

translated both text and concepts into Chinese culture In this erudite volume David Lee examines how Liu Zhi integrated the basic religious living of the monotheistic Hui Muslims into their pluralistic Chinese culture Liu Zhi discussed the Prophet Muhammad in Confucian terms and his work served as a bridge between peoples This book is an in depth study of Liu Zhi s contextualization of Islam within Chinese scholarship that argues his merging of the two never deviated from the basic principles of Islamic belief
