good Because of the attack on the World Trade Center on September 11 2001 the very concept of religion underwent a paradigm shift Instead of standing for virtue and piety peace and harmony the word religion also came to be inextricably associated with evil aggression and terror People around the world began to question whether the religious and secular dimensions of modern life can be reconciled whether the different religions of the world can ever coexist in harmony Indeed the very future of religion itself has sometimes seemed to be uncertain or at least suspect
