**Sufism for Today** Khalid A. Wasi, 2021-08-12 There is power in our everyday living A kind word or empathy is not just a word or feeling it is an opening of the channels in the heart These channels are like electrical conduits that convey the energy of life God Religion is meant as a practice and a guide to open these channels Sufism is a known practice dedicated to cultivating spiritual attributes However even Sufism when entertained as a cult is not the end road rather it is as a doorway or methodology The principle of Sufism is to give pure love and charity toward others and it is a realization of oneness that there is no separation from the creator of the universe Sufism for Today begins by explaining where the word or term Sufi may have originated The book describes the generality of asceticism and the basic underlying principles of selflessness giving and love as the foundation of all inspiration that has led mankind Finally Sufism for Today conveys the power and superiority of innocent acts of kindness over ritualized behaviour regardless of the religious title or form of sectarianism practiced

Sufism Deepshikha Shahi, 2020-06-22 In an effort to attain a global character the contemporary academic discipline of International Relations IR increasingly seeks to surpass its Eurocentric limits thereby opening up

pathways to incorporate non Eurocentric worldviews Lately many of the non Eurocentric worldviews have emerged which either engender a derivative discourse of the same Eurocentric IR theories or construct an exceptionalist discourse which is particularly applicable to the narrow experiential realities of a native time space zone as such they fall short of the ambition to produce a genuinely non derivative and non exceptionalist Global IR theory Against this backdrop Sufism A Theoretical Intervention in Global International Relations performs a multidisciplinary research to explore how Sufism as an established non Western philosophy with a remarkable temporal spatial spread across the globe facilitates a creative intervention in the theoretical understanding of Global IR
