Sinoamerican Relations At A Time Of Change:

Sino-American Relations at a Time of Change Bih-jaw Lin, Gerrit W. Gong, 1994 **Bridging the Sino-American Divide** Mei Renyi, 2009-05-27 Within China the discipline of American Studies spans a wide variety of concerns and preoccupations reflecting its practical diversity in a transnational setting Essays in this volume by close to forty scholars the majority most of them based in mainland China reflect on the past history and current teaching of American Studies within China placing these in comparative perspectives The nature of globalization the transmission of ideas and practices across cultural boundaries the formulation and meaning of identity in cross national communications constitute major themes in contemporary American Studies in China For officials and commentators alike the past present and future state of Sino American relations are also an overriding preoccupation of China s America watchers Overall this collection allows the reader to sample and appreciate the state of the field of American Studies in today s China **Conflict and Cooperation in Sino-US Relations** Jean-Marc F. Blanchard, Simon Shen, 2015-02-20 Numerous crosswinds are buffeting the more than 40 year old People s Republic of China American relationship yet only once since Nixon s historic trip to China in 1972 has a major conflagration seemed a real possibility Anchoring the relationship throughout multiple storms are the two countries broad areas of collaboration such as deep links in culture economics and education However for some observers the conflictual aspects of the relationship seem to be gaining prominence Conflict and Cooperation in Sino US Relations offers a timely and current look at one of the world s weightiest bilateral relationships It goes beyond detailing the conflict and cooperation that have been integral facets of China US interactions since 1972 to gauging the relationship s evolution and future trends examining its nuances regarding diverse issues such as the Asia Pacific leadership structure the South China Sea and the Korean peninsula The book further delves into the causes of conflict and cooperation offers diverse solutions for tempering frictions between Beijing and Washington and considers the efficacy of some of the mechanisms e g military to military exchanges that China and the US currently employ to manage their relationship The chapters suggest that extreme anxieties about China US relations may be misplaced but that there nonetheless are some worrisome signs even in areas like economics and the environment that are perceived as naturally cooperative While the book does not offer any silver bullets various contributors contend that successful management of Sino American relations may require greater American accommodation of China s interests This book will be of great interest to students and scholars of Chinese politics American politics international relations and Asian studies as well as to policy makers working in the field **The Media and Sino-American Rapprochement, 1963-1972** Guolin Yi, 2020-11-11 Winner of the ACPSS Research Award An important new cultural study of the Cold War Guolin Yi s The Media and Sino American Rapprochement 1963 1972 analyzes how the media in both countries shaped public perceptions of the changing relations between China and the United States in the decade prior to Richard Nixon s visit to Beijing This book offers the first systematic study of Cankao Xiaoxi Reference News

an internal Chinese newspaper that carried relatively objective stories the Xinhua News Agency translated from world news media for circulation among Communist cadres As the main channel for the cadres to learn about the outside world this newspaper provides a window into China's evolving foreign policy including the reception of signals from the Nixon administration Yi compares this internal communications channel with the public accounts contained in the more widely circulated newspaper People's Daily a chief propaganda outlet of the Chinese Communist Party CCP directed at its own people and China watchers all over the world A third level of communication emerges in classified CCP instructions and government documents By approaching the Chinese communication system on three levels internal public and classified Yi's analysis demonstrates how people at different positions in the political hierarchy accessed varying types of information allowing him to chart the development of Beijing's approach to the U S government In a corresponding analysis of the defining features of American reporting on China Yi considers the impact of government media relationships in the United States during the Cold War Alongside prominent magazines and newspapers particularly the New York Times and the Washington Post in their differing coverage of key events Yi discusses television networks which proved vital for promoting the success of Ping Pong Diplomacy and the impact of Nixon's visit in 1972 With its comparative study of news outlets in the two countries The Media and Sino American Rapprochement 1963 1972 presents a thorough and comprehensive perspective on the role of the media in influencing domestic Chinese and American public opinion during a critical decade
