[Twenty-Five Astronomical Observations That Changed the World](#) Michael Marett-Crosby, 2013-06-28 Twenty Five Astronomical Observations That Changed the World takes twenty five journeys

through space back in time and into human history We begin with the simplest sight of the Tycho Crater on the Moon through a repeat of Galileo's observations of Jupiter's moons and then move out towards the nebulae stars and galaxies The astronomical observations repeat the original groundbreaking discoveries that have changed our understanding of science and ourselves This title contains graded observing challenges from the straightforward to the more difficult in chapter order It offers clear observing tips and lots of practical help presuming no prior in depth knowledge of equipment Binoculars and or a small astronomical telescope are all that is required for most of the observations Secondly it explores for each observation the science of what is seen adding to the knowledge and enjoyment of amateur astronomers and offering lots of reading for the cloudy nights when there is not a star in view Thirdly the book puts the amateur astronomer's observations into a wider perspective Twenty Five Astronomical Observations That Changed the World makes the observer part of that great story of discovery Each chapter each observing challenge shows how to observe and then how to look with understanding The projects begin with practicalities where the object is how best is it observed and with what appropriate equipment usually a small to medium aperture amateur telescope binoculars even the naked eye Twenty Five Astronomical Observations that Changed the World guides even the inexperienced amateur astronomer beginners can use the book around a variety of night sky objects and reminds the more experienced how they can best be seen These practical observations put us in contact with all the history and culture surrounding them through scientific speculation and literature to those first fuzzy images made in 1959 by the Russian space probe Luna 3
