Creating Gender-Fair Schools & Classrooms Lynn Raphael Reed, Tina Rae, 2007-03-18 Includes CD Rom For many teachers gender issues related to role models image and expectations have an effect upon the behaviour and achievement of both boys and girls often to their disadvantage. This innovative and practical resource for teachers of students aged 5-13 provides o a programme to promote gender equality and inclusivity in schools and colleges o a rationale for the programme based on social justice o a practical set of classroom activities to implement the programme. The book combines the talents and commitment of two leading authors to provide an action inquiry methodology engaging students and staff in the processes of investigating what is currently happening and planning implementing and reviewing improvements. This contributes to the development of the school as a self evaluating organisation which listens to the voice of the child. The programme supports teachers and other school staff in developing as reflective practitioners and children and young people in developing as reflective learners. It can also be used to engage schools and colleges in joining the UNICEF Rights Respecting programme which is demonstrating positive results. A real strength of the resource is the inclusion of practical activities that have been carefully designed for pupils. These are excellent and lend themselves for use in a variety of ways. This is a thoroughly recommended resource. SENCO Update

Body Image in the Primary School Nicky Hutchinson, Chris Calland, 2011-03-08 The average child watches between 20 000 and 40 000 adverts a year. Girls as young as six are cutting down on what they eat to stay thinner. Three quarters of ten and eleven year olds would like to change their appearance. Body image and its impact upon self esteem has been recognised as an issue which affects increasingly younger children. Research in this area has traditionally focused on adolescents yet anxieties about appearance often develop at a much earlier age than this. Primary schools have a critical role in helping

children to develop a healthy body image through positive intervention Body Image in the Primary School offers step by step lessons for teachers to address this issue It examines the continuous media and peer pressures that young children are exposed to and encourages children to recognise their own strengths and qualities and to become resilient members of society The authors demonstrate a practical range of activities and projects for teachers to work with designed to make them confident in discussing body image in the classroom This book offers lesson plans for Key Stage 1 Key Stage 2 and the transition to Key Stage 3 practical guidance on how to support and involve parents and carers analysis on the changing social influences of home life peer pressure and the media overviews of research on the links between body image academic achievement and emotional well being This book contains explicit links to SEAL and the ECM outcomes and will be of significant interest to all teachers teaching assistants and practitioners working with primary children **Primary English:**
