Skeps Frank Alston, Richard Alston, 1987      **Virginia Honey: A Sweet History** Virginia C. Johnson, 2021 Honeybees have been a part of Virginia's history since they arrived with the first European colonists. They were Jamestown's valuable addition and a Civil War soldier's sweet if painful temptation and they served as homefront heroes when the world wars caused sugar shortages. In recent years mead has seen a resurgence along with beekeeping and has claimed a place as a craft beverage in the Commonwealth. Join author Virginia Johnson to hunt escaped swarms flying wild in the forests, visit modern day observation hives and follow the mead path across the Commonwealth for a taste of history.      **The World History of Beekeeping and Honey Hunting** Eva Crane, 1999-10-13 First published in 2000. This comprehensive book represents the first attempt to write a world history of people's use of social bees: how bee nests were initially hunted for their honey and wax and later how the bees were kept in purpose-made hives. Evidence survives from early times in the form of artefacts, pictures and written records and also human traditions of dealing with bees. Since 1949 the author has had opportunities to travel in over sixty countries and to see traditional and modern hive beekeeping and also honey collection from nests. She learned much that helped her to piece together some of the long history in the different continents.

*Catalog of Beekeeper's Supplies* Brushy Mountain Bee Farm, Inc, 1998      **All Things Medieval** Ruth A. Johnston, 2011-08-15 This insightful survey of the things of medieval Europe allows modern readers to understand what they looked like, what they were made of, how they were created and how they were used. **All Things Medieval: An Encyclopedia of the Medieval World** covers the widest definition of medieval Europe possible, not by covering history in the traditional textbook manner of listing wars, leaders and significant historic events, but by presenting detailed alphabetical entries that describe the artifacts of medieval Europe. By examining the hidden material culture and by presenting information about topics that few books cover: pottery, locks and keys, shoes, weaving looms, barrels, toys, pets, ink, kitchen utensils and much more, readers get invaluable insights into the nature of life during that time period and area. The heartland European regions such as England, France, Italy and Germany are covered extensively and information regarding the objects of regions such as Byzantium, Muslim Spain and Scandinavia are also included. For each topic of material culture, the entry considers the full scope of the medieval period, roughly 500-1450, to give the reader a historical perspective of related traditions or inventions and describes the craftsmen and tools that produced it.      Sweetness and Light Hattie Ellis, 2010-04-28 Did you know that Abraham Lincoln and Muhammad Ali both consumed bee pollen to boost energy or that beekeepers in nineteenth-century Europe viewed their bees as part of the family? Or that after man, the honeybee *Apis mellifera* is the most studied creature on the planet? And that throughout history, honey has been highly valued by the ancient Egyptians, the first known beekeepers, the Greeks and European monarchs as well as Winnie the Pooh? In *Sweetness and Light*, Hattie Ellis leads us into the hive, revealing the fascinating story of bees and honey from the Stone Age to the present, from Nepalese honey hunters to urban
