Body Process James I.

Kepner,2014-10-14 Traditional psychotherapy approaches focusing on working with and correcting mental events and conditions have placed little importance on the fundamentally physical nature of the person Yet many of the problems people bring to therapy are linked with or manifested in the body such as obesity psychosomatic distress chronic tension and sexual problems This book provides a therapeutic approach that addresses both the physical and mental nature of clients In this book James Kepner shows that a client s posture movements and bodily experiences are indeed relevant to therapy and he offers an insightful framework for incorporating these aspects into a therapeutic framework This comprehensive treatment explains how body work can be integrated with the aims methods and philosophy of psychotherapy offering a framework within which practitioners of different theoretical approaches can better appreciate body processes in the context of the whole person rather than as isolated events This book including an updated introduction by the author explores the range of body work in psychotherapy from the development of body awareness to intensive work with physical structure and expression And it demonstrates how this approach can be particularly effective with a range of clients including survivors of sexual abuse recovering drug addicts or alcoholics or those suffering from chronic illness *Even If it Costs Me My Life*

Lusheck, 2017-08-07 Rubens and the Eloquence of Drawing re examines the early graphic practice of the preeminent northern Baroque painter Peter Paul Rubens Flemish 1577 1640 in light of early modern traditions of eloquence particularly as promoted in the late sixteenth and

early seventeenth century Flemish Neostoic circles of philologist Justus Lipsius 1547 1606 Focusing on the roles that rhetorical and pedagogical considerations played in the artist's approach to disegno during and following his formative Roman period 1600 08 this volume highlights Rubens's high ambitions for the intimate medium of drawing as a primary site for generating meaningful and original ideas for his larger artistic enterprise As in the Lipsian realm of writing personal letters the humanist activity then described as a cognate activity to the practice of drawing a Senecan approach to eclecticism a commitment to emulation and an Aristotelian concern for joining form to content all played important roles Two chapter long studies of individual drawings serve to demonstrate the relevance of these interdisciplinary rhetorical concerns to Rubens's early practice of drawing Focusing on Rubens's *Medea Fleeing with Her Dead Children* Los Angeles Getty Museum and *Kneeling Man* Rotterdam Museum Boijmans Van Beuningen these close looking case studies demonstrate Rubens's commitments to creating new models of eloquent drawing and to highlighting his own status as an inimitable maker Demonstrating the force and quality of Rubens's intellect in the medium then most associated with the closest ideas of the artist such designs were arguably created as more robust pedagogical and preparatory models that could help strengthen art itself for a new and often troubled age
