Schulz's acclaimed daily comic strip syndicated in thousands of newspapers over five decades brilliantly mirrored tensions in American society during the second half of the 20th century. Focusing on the strip's Cold War roots, this collection of new essays explores existentialism, the reshaping of the nuclear family, the Civil Rights Movement, 1960s counterculture, feminism, psychiatry, and fear of the bomb. Chapters focus on the development of Lucy, Peppermint Patty, Schroeder, Franklin, Snoopy, and the other characters that became American icons.

Animal - Bad Things Happen When Good Men Do Nothing Paul Jones, 2012-09-01

Animal is set in and around a beautiful Welsh seaside town. Money is tight and the residents are fed up with their crime-infested community, so a group of renegade martial artists decide to take the law into their own hands and become hired vigilantes. In the centre of this all is Will Thomas, a martial artist and friend to the watchmen. Will is back in town after spending three years in prison for grievous bodily harm. His sole purpose is to try and win back his ex-fiancee Stacey. Meanwhile, problems arise for the vigilantes when one of their victims turns out to be a mule for a dangerous Merseyside gang. Now the hunters have suddenly become the hunted, and in desperation they turn to their old friend Will for help. But Will has turned over a new leaf and has managed to build the foundations for a new relationship with his Stacey. Is he willing to risk everything to help them?

Animal is a work of crime fiction weaved with a little romance and plenty of martial arts for readers who want a glimpse of criminals getting a taste of their own medicine. Paul is mostly influenced by James Herbert, whose writing style he emulates.

Truth and the Unconscious in Psychoanalysis Giuseppe Civitarese, 2016-03-02

What is the truth of the unconscious? *Truth and the Unconscious in Psychoanalysis* explores the intersection of these two concepts within a Bionian framework. Giuseppe Civitarese maps out the unconscious in psychoanalysis and focuses on the differences between the Freudian, Kleinian, Bionian, and Lacanian schools of thought on this topic, as well as drawing on findings from neuroscience. The book explores topics including the inaccessibility of the unconscious, dreams, body issues, issues of personality, the influence of field theory, and the clinical implications of this theorising. It contains innovative comparison between Freudian metapsychology and the Bionian theory on thinking, and novel use of Bion's hallucinosis as an important new technical tool. An internationally recognised author, Civitarese provides fresh ideas throughout on a challenging subject supported with vivid clinical material. *Truth and the Unconscious in Psychoanalysis* will be of interest to anyone following the growing post-Bionian movement within contemporary psychoanalysis, enabling them to familiarize themselves with some of the most important current issues in psychoanalytic research. *Truth and the Unconscious in Psychoanalysis* will appeal to psychotherapists, psychologists, and psychoanalysts, as well as undergraduate and postgraduate students studying in the field.
