Introduction Ian Hargreaves,2005-09-15 Almost everyone reads the newspaper browses the Internet listens to the radio or watches TV Journalism has an indelible effect on our worldview from the fight against global terrorism to the American presidential elections celebrity scandal to the latest environmental coups Hargreaves uses his unique position within the media to examine how we get this information and the many practical political and professional decisions that the journalist has to make as part of the process of delivering that information to us Is journalism the first draft of history or a dumbing down of our culture and a glorification of the trivial and intrusive In this intriguing book Ian Hargreaves argues that the core principles of freedom of the press and the necessity of exposing the truth are as vital today as they ever were ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable **Navigation:**

A Very Short Introduction Jim Bennett,2017-02-10 From the Bronze Age mariners of the Mediterranean to contemporary sailors using satellite based technologies the history of navigation at sea the art of finding a position and setting a course is fascinating The scientific and technological developments that have enabled accurate measurements of position were central to exploration trade and the opening up of new continents and the resulting journeys taken under their influence have had a profound influence on world history In this Very Short Introduction Jim Bennett looks at the history of navigation starting

with the distinctive cultures of navigation that are defined geographically the Mediterranean Sea and the Pacific Indian and Atlantic Oceans He shows how the adoption of mathematical methods the use of instruments the writing of textbooks and the publication of charts all combined to create a more standardised practice Methods such as longitude finding by chronometer and lunar distance were complemented by the routine business of recording courses and reckoning position by account Bennett also introduces the incredible array of instruments relied on by sailors from astrolabes sextants and chronometers to our more modern radio receivers electronic equipment and charts and highlights the crucial role played by the individual qualities of endeavour and resourcefulness from mathematicians scientists and seamen in finding their way at sea The story of navigation combines the societal the technical and the human and it was vital for shaping the modern world ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable
