Social Innovation in the City Richard S. Rosenbloom, Robin Marris, 1969 **Social Innovation in the City**, 1969
Compilation of studies in social research and economic research on the relationship of technological change and social change with particular reference to problems connected with urban area poverty and community development in the USA covers government policy the role of private enterprise group dynamics in the Black ghetto entrepreneurial innovation low cost housing community relations social participation social integration etc Bibliography pp 92 to 95 **Social Innovation in the City** Richard S. Rosenbloom, 1969 **Social Innovation in the City** Harvard University. Program on Technology and Society, 1969 This collection of working papers from an interdisciplinary study group of the Harvard University Program on Technology and Society is a first report of work in progress Based on the premise that neither government nor business as presently organized can do the job of renewing American cities the papers show that community development organizations can be formed which achieve businesslike efficiency growth and innovation and which would respond to market like rewards

Richard S. Rosenbloom, Robin Marris, 2013-10-01 *Understanding Social Entrepreneurship* Jill Kickul, Thomas S. Lyons, 2020-04-01 *Understanding Social Entrepreneurship* is the leading textbook that provides students with a comprehensive overview of the field. It brings the mindset, principles, strategies, tools, and techniques of entrepreneurship into the social sector to present innovative solutions to today's vexing social issues. Kickul and Lyons cover all the key topics relevant to social entrepreneurship, including a detailed examination of each of the steps in the entrepreneurial process. This third edition includes several new features: a process-oriented format taking students through discovery, design, development, and delivery; two new chapters, one on lean start-up and design thinking for social entrepreneurship and another on unconventional approaches from developing countries; updated and new case studies with improved global coverage; Voices from the Field sections that explore evidence-based research from the field; bringing together a rigorous theoretical foundation and a strong practical focus, this is the go-to resource for students of social entrepreneurship at undergraduate and postgraduate levels. A companion website includes an instructor's manual, PowerPoint slides, a test bank, and other tools to provide additional support for students and instructors.

Using Entrepreneurship and Social Innovation to Mitigate Wealth Inequality Thomas S. Lyons, Roger E. Hamlin, Amanda Hamlin, 2018-11-05 Economic inequality continues to contribute to political and social instability around the world. This instability stifles development and results in widening the wealth gap between the haves and have-nots, further eroding stability. It has been argued that entrepreneurship is a prime contributor to this vicious cycle. *Using Entrepreneurship and Social Innovation to Mitigate Wealth Inequality* contends that this is only true when the opportunity for entrepreneurship is limited to a few. The authors maintain that when entrepreneurship is open to anyone who is properly motivated, innovative, and has a goal of growth for their enterprise, it helps build wealth for a greater number of people. The concept of social entrepreneurship is introduced where entrepreneurship becomes a vehicle for explicitly addressing community-based economic and social challenges using markets. The book uses examples of entrepreneurial projects and programs that have attempted to address inequality to discuss entrepreneurship as an economic development strategy and its role in addressing the challenges of economic inequality. It advocates thinking and acting systemically, creating and sustaining entrepreneurial support ecosystems in order to generate the synergy required to scale up development and transform our economies, and provides a distinctive perspective on a pressing social and economic issue with significant implications for the future of the United States and the world.
