César Chávez, the Catholic Bishops, and the Farmworkers' Struggle for Social Justice Marco G. Prouty, 2022-06-21 César Chávez and the farmworkers struggle for justice polarized the Catholic community in California's Central Valley during the 1965-1970 Delano Grape Strike Because most farmworkers and landowners were Catholic the American Catholic Church was placed in the challenging position of choosing sides in an intrafaith conflict Twice Chávez petitioned the Catholic Church for help Finally in 1969 the American Catholic hierarchy responded by creating the Bishops Ad Hoc Committee on Farm Labor This committee of five bishops and two priests traveled California's Central Valley and mediated a settlement in the five year conflict Within months a new and more difficult struggle began in California's lettuce fields This time the Catholic Church

drew on its long standing tradition of social teaching and shifted its policy from neutrality to outright support for Cesar Chavez and his union the United Farmworkers UFW The Bishops Committee became so instrumental in the UFW's success that Chavez declared its intervention the single most important thing that has helped us Drawing upon rich untapped archival sources at the United States Conference of Catholic Bishops Marco Prouty exposes the American Catholic hierarchy's internal and often confidential deliberations during the California farm labor crisis of the 1960s and 1970s He traces the Church's gradual transition from reluctant mediator to outright supporter of Chavez providing an intimate view of the Church's decision making process and Chavez's steadfast struggle to win rights for farmworkers This lucid solidly researched text will be an invaluable addition to the fields of labor history social justice ethnic studies and religious history Handbook of Research in Social Studies Education Linda S. rhetoric of social justice is commonplace but increasingly it means little more than a tag line or a punctuation point. *Reconstructing Social Justice* presents a new framework for social justice that will change the way people think about social justice and change the way people implement social justice. This book carves out an intellectual and practical space for social justice that is distinct from political, legal and economic spheres. While emphasizing a distinct domain for social justice, the author then makes sense of its healing role in terms of the polity, economy, technology and religion. Drawing from a rich supply of classroom experiences, her research on mosque controversies after September 11, 2001, and then the global examples of truth and reconciliation commissions, Frederking invites the reader to think about the relevance of social justice from the micro to the macro level. Rather than a set of policy outcomes or ideological positions, social justice is a process of social accountability that demands honest and transparent engagement. While disagreement is likely and controversy inevitable, this social justice process reaffirms our connectedness and moves us forward as a collective. **Creativity,**
