Farming Systems Research Paper Series ,1982      Quick Bibliography Series ,1976      **Beyond the Biophysical** Laura German,Joshua J. Ramisch,Ritu Verma,2010-06-10 Beyond the Biophysical provides a broad overview of agriculture and natural resource management NRM scholarship and practice that lies beyond the biophysical emphasizing instead epistemological cultural and political foundations of NRM The volume is oriented toward professionals with expertise in agriculture and natural resource management scholarship and practice but who lack exposure to the conceptual and methodological underpinnings of critical theory the anthropology of development ecological anthropology and other relevant scholarship It therefore follows common standards of academic rigour but minimizes the use of jargon integrates detailed case studies with conceptual syntheses and attempts to move from critique to concrete recommendations for scholarship and practice The volume seeks to foster a more nuanced and responsible engagement with local communities and the natural world among NRM scholars and practitioners      Rra Notes Number 18 Lied.,1993      **The Journal of Social Studies** ,1989

African Food Systems in Crisis Rebecca Huss-Ashmore,Solomon H Katz,2019-07-19 Originally published in 1991 Commissioned by the Task Force on African Famine of the American Anthropological Association this the second part of a project examining the causes of food system failure in Africa and the effects of attempts to remedy the situation It evaluates the often retrogressive results of foreign aid to African nations and offers an anthropological perspective on how to reverse this trend The contributors emphasize integrating all development programs with the regional customs and traditions already in place that have thus far allowed its people to cope with food and water shortages In the past various strategies have failed due to misunderstandings and incorrect assumptions concerning gender roles food consumption habits social relations kinship networks land use and government function New understanding of the culture must be complemented with multifaceted programs incorporating education a concern for grass roots opinion and control attention to production and consumption patterns and various forms of broad spectrum integrated development The uniqueness research is recommended for all who are concerned about worldwide malnutrition and those who understand the need to recognize local traditions as resources that must be included in any successful development program      **Proceedings of the Workshop on Social Science Research and the CRSP's** ,1993      *Participatory Rural Appraisal* N. Narayanasamy,M.P. Boraian,2005 This Book Seeks To Assess The State Of The Art Of Participatory Rural Appraisal Pra Among The Ngos In Tamil Nadu With Particular Focus On Efficacy Of Participatory Methods It Finds Out The Problems And Challenges Encountered By The Ngos In Employing Pra Methods In Rural Development Work And Analyses The Steps Taken By Them To Overcome Such Problems And Challenges Also It Ascertains The Innovations If Any Attempted By Ngos In The Arena Of Participatory Methods

**Farming Systems Research And Development** W. W. Shaner, 2019-03-08 In recent years policy makers have been paying more attention to the problems of small farmers in developing countries with the idea of increasing their production and standard of living The policy makers objectives are twofold 1 1 I to help those whose welfare is materially below the rest of society and 121 to help a country increase its agricultural production With adequate agricultural policies these two objectives are mutually reinforcing For example increased food production gives farm households additional food for consumption and surpluses for sale Farmers can then use the money from these sales to buy items they do not produce and the buyers of farm products benefit from the increased supplies *Social Science Department Working Paper Series*, 2000

**Validación de tecnologías en sistemas agrícolas** Ricardo Andres Radulovich, Jan A. J. Karremans, 1993 **Farming Systems In The Nigerian Savanna** David Norman, 2019-03-04 This book embodies work stretching over a fifteen year period As a result inevitably we are greatly indebted to a number of institutions and a large number of individuals Over the years considerable administrative and financial help was provided by the Institute for Agricultural Research Ahmadu Bello University the Ministries of Agriculture and Natural Resources in the northern states of Nigeria the Ford Foundation and more recently Kansas State University **Facilitating Sustainable Agriculture** N. G. Roling, M. A. E.

Wagemakers, 2000-09-21 A move towards more flexible sustainable agricultural practices is increasingly being seen as the way to address or avoid environmental and economic problems associated with existing predominantly intensive farming systems Through case studies taken from around the world this book examines the implications of adopting more ecologically sound agricultural practices both at the level of individual farmers and at the level of larger scale agro ecosystems such as water catchments The emphasis of the book is on human and social aspects rather than on agronomic or economic considerations focusing on the learning processes necessary for change to be implemented and in turn on the facilitation of that learning through participatory approaches and appropriate institutional support and policy structure Agricultural Research Alternatives William Lockeretz, Molly DelCarmen Anderson, 1993-01-01 Clearly the debate is no longer over agricultural sustainability as a legitimate goal but about how to fulfill that goal Research is a vital factor contributing to the creation of a sustainable agriculture Entrenched ideas about the way agricultural research is conducted have been challenged by farmers environmentalists food safety advocates rural activists and others William Lockeretz and Molly D Anderson meet these challenges and chart a reasoned course through the fray They analyze the potential and the limits of various research approaches associated with alternative agriculture multidisciplinary research application of ecological principles in understanding agricultural systems emphasis on the use of agricultural information use of working farms as research sites and the involvement of farmers in agricultural research They also propose reforms in institutional aspects of agricultural research the organization of academic departments evaluation of professional achievement functioning of grant programs and the education of agricultural researchers
