Social Survey Methods Paul Nichols,1991 Social Survey Methods is a readable guide to selecting an appropriate affordable research method implementing the research communicating the results *Toolkits* Louisa Gosling,Mike Edwards,2003 Toolkits is divided into three sections underlying principles practical questions and tools This new edition brings these up to date and discusses the implications of adopting a human rights approach to development and the increased emphasis on partnership There are new chapters on impact assessment and monitoring and evaluating advocacy as well as two new tools one for improving your planning evaluation and impact assessment and one for stakeholder analysis

The Oxfam Handbook of Development and Relief Deborah Eade, Suzanne Williams, 1995 This handbook is the product of the experience of Oxfam UK and Ireland in its work in over 70 countries around the world It offers an expression of Oxfam s fundamental principles that all the people have the right to an equitable share in the world's resources and the right to make decisions about their own development The denial of such rights is at the heart of poverty and suffering This reference work analyses policy procedure and practice in such fields as health human rights emergency relief capacity building and **Social Survey Methods** Paul Nichols, 1991-01-01 Social Survey Methods is a readable guide to agricultural production selecting and implementing an appropriate affordable research method Designed for those without a formal training in statistics it includes advice on design of survey forms interview methods and statistical analysis of results ProPack II Valerie Stetson, Susan Hahn, David Leege, Debbie Reynolds, Guy Sharrock, 2007-04-09 Applied Ethnobotany Anthony B. Cunningham, 2014-10-14 Its wise and sensitive approach to working with local people will be relevant in situations throughout the world ECOS The numerous diagrams tables of data information flow charts fieldwork sketches etc give a great vibrancy to the work It deserves a wide readership TEG News Wild or non cultivated plants are crucial to the lives of a large portion of the world's population providing low cost building materials fuel food supplements medicines tools and sources of income Despite their importance their vulnerability to harvesting and other social impacts is not well understood Applied Ethnobotany is the first practical guide to be published on how to manage wild plant species sustainably This detailed manual on wild plant resources sets out the approaches and field methods involved in participatory work between conservationists researchers and the primary resource users Supported by extensive illustrations it explains how local people can learn to assess the pressures on plant resources and what steps to take to ensure their continued availability For all those involved in resource management decisions regarding plant species and diversity and in particular those studying or working in conservation rural development and park management this guide is invaluable Published with WWF UNESCO and Royal Botanic Gardens Kew The Routledge Handbook of Smuggling Max Gallien, Florian Weigand, 2021-12-21 The Routledge Handbook of Smuggling offers a comprehensive survey of interdisciplinary research related to smuggling reflecting on key themes and charting current and future trends Divided into six parts and spanning over 30 chapters the

volume covers themes such as mobility borders violent conflict and state politics as well as looks at the smuggling of specific goods from rice and gasoline to wildlife weapons and cocaine Chapters engage with some of the most contentious academic and policy debates of the twenty first century including the historical creation of borders re bordering the criminalisation of migration and the politics of selective toleration of smuggling As it maps a field that contains unique methodological ethical and risk related challenges the book takes stock not only of the state of our shared knowledge but also reflects on how this has been produced pointing to blind spots and providing an informed vision of the future of the field Bringing together established and emerging scholars from around the world The Routledge Handbook of Smuggling is an indispensable resource for students and researchers of conflict studies borderland studies criminology political science global development anthropology sociology and geography Improving the Safety of Civilians Oxfam GB., 2009 This book is an innovative tool which strengthens the capacity of humanitarian field workers to improve civilian safety through humanitarian programmes The materials are designed for use by experienced facilitators who have some knowledge of protection issues to train emergency response teams Qualitative Educational Research in Developing Countries Michael Crossley, Graham Vulliamy, 2013-10-15 This collection of 11 original in depth accounts of qualitative research and evaluation in developing countries argues that such innovative methods offer considerable advantages over traditional methods With examples drawn from Asia Africa the South Pacific Central America and the Caribbean each chapter focuses upon a specific method such as qualitative interviews fieldwork or document analysis and considers related theoretical and practical issues Key issues addressed include the identification of appropriate research questions access research ethics practitioner research case study evaluation North South collaboration and the potential of qualitative research for policy making and theory Oxfam Handbook of Development and Relief Deborah Eade, 1995 **Sharing the City** John Abbott, 2013-11-05 While the rate of urbanisation in the developing world has increased dramatically over the past 20 years governments capacity to support urban growth has in many cases failed to keep up with this trend Non governmental organisations working in the field have long advocated community management of the urban environment as the best solution to this problem and there is now a growing consensus that the answer does indeed lie with local communities Yet there is still little understanding of what constitutes meaningful and effective community participation or how it may be achieved in such a complex operating environment Sharing the City gives a comprehensive account of urban community participation both in theory and practice It first presents a wide ranging analysis of the issues and develops a participatory framework for urban management Using case studies and existing examples from around the world and drawing on lessons learned from previous experience it then develops the theory into a practical working model Effective participatory urban management calls for a fundamental rethink on the part of all the actors involved from local authorities and development agencies through local and international NGOs to the community based organisations and the communities themselves In redefining their roles and relationships Sharing

the City presents a new and radically different yet viable and effective approach to the concept of urban management Water Services Management David Stephenson, 2005-03-01 Water services include water supply sewerage and stormwater drainage The facilities needed for these services are pipelines reservoirs and treatment works but the service goes beyond the infrastructure It includes economics billing and business management Although these services exist in every city being advanced by the growing use of automation and information technology costs are also increasing without many consumers seeing increased benefits Customer service is therefore becoming important to the industry Water Services Management is intended to educate engineers to manage and improve water services rather than simply designing and constructing treatment works and distribution systems The text covers water supply and drainage from the hydraulic and economic points of view and while design and construction practices are reviewed the focus of the book is on improving existing systems to turn the emerging industry into an attractive business Topics covered include Potable water supply sewerage and stormwater drainage Hydraulic management storage peak flow attenuation and pumping Water quality standards pollution control and treatment Infrastructure management rehabilitation reconstruction upgrading and maintenance Economic efficiency asset management privatization and risk analysis Improving economic viability via efficient use of energy and construction project management Characteristics encountered in developing countries are also considered including Low cost sanitation water supply standards and off grid energy sources Capacity building and appropriate technologies Financing operation and benchmarking Developing and Managing Community Water Supplies Jan Davis, Gerry Garvey, Michael Wood, 1993 This book discusses the issues and stages in the development of water supplies from the initiation of a programme through to the community management of a supply system. The importance of involving all the members of a community in decisions about water provision is emphasised as is the need to incorporate hygiene education

Sampling Methods, Remote Sensing and GIS Multiresource Forest Inventory Michael Köhl, Steen S. Magnussen, Marco Marchetti, 2006-10-19 When we talk about forests we talk about 30% of our planet's land surface 6 area In 2000 there was an estimated 3 870 10 ha of forest worldwide of which 1 5% is in forest plantations and 95% in natural forests FAO 2003 Forests are not only a source for timber they also generate significant nonwood goods and services mitigate climate change conserve biological diversity provide prot tion from natural hazards and not least provide recreational areas for an increasingly urbanized world population The availability of timber and n wood goods and services is waning as deforestation and degradation of tro cal forests continue While forest area has stabilized or is slightly increasing in the boreal and temperate regions the annual loss of forest area in the tropics and subtropics is decreasing Between 1990 and 2000 the annual rate of defor 6 estation was estimated to be 14 6 10 ha approximately 0 38% and took place mainly in tropical and subtropical forests FAO 2003 The net annual rate of 6 change is about 9 4 10 ha 0 2% Maintaining and enhancing forest areas and the vitality of forest ecosystems is a widely accepted political goal which is often opposed by conflicting demands of various

stakeholders Resource Assessment of Non-wood Forest Products Jennifer Ley Gn Wong, Kirsti Thornber, Nell Baker, 2001-01-01 This publication is intended as reference material for practitioners considering inventory of non wood forest product NWFP resources Through review and analysis of experience it provides an overview of biometric issues in the design of NWFP inventory in the following areas a description of the range of approaches used and developed to date and their biometric adequacy and a suggested method for selecting appropriate biometric methods for resource quantification in different situations and for different products Prices, Products, and People Gregory J. Scott, 1995 The authors go beyond the traditional presentation of economic principles offering instead a series of applied methods for data collection and analysis Drawing on extensive experience in Africa Asia and Latin America they not only describe specific procedures but also provide a wealth of illustrative research results This book will be particularly useful to teaching professionals development specialists and applied researchers working in developing countries Doing Comparative Education Research Keith Watson, 2001-01-01 In the newly emerging global economic order governments and policy makers are keen to seek ideas from other countries and recognise the importance of looking comparatively This expansion of interest in comparative education brings new challenges for the discipline research may be undertaken by non specialists by consultants and politicians or educationists from quite different backgrounds the short lifespan of democratically elected governments may lend attraction to quick fix solutions statistics and data may be decontextualised Added to these challenges there is the worldwide proliferation of education providers outside state control and the transformation of teaching and learning brought about by the new information technology This book rethinks the role of comparative education in the light of these changing circumstances and looks at the new opportunities they bring Methods on the Move . The River Basin Game B. Lankford, C. Sokile, , D. Yawson, H. Lévite , 2004 Raising Irrigation Productivity and Releasing Water for Intersectoral Needs RIPARWIN is a study of river basin management in the Great Ruaha River Tanzania The objective of the study is to examine the theory that if irrigation productivity can be raised then water can be released to meet downstream and intra intersectoral needs In similar situations role playing tools have proved to be effective in solving water management conflicts The River Basin Game described in this working paper is a dialogue tool for decision makers and water users that has been tested in Tanzania It comprises a physical representation of the catchment in the form of a large wooden board The central river flows between the upper catchment and a downstream wetland and has on it several intakes into irrigation systems of varying sizes Glass marbles that flow down the channel represent the river water This report includes a literature review of gaming in water resources management a complete description of the game details of the practical arrangements required to organize a game playing session and possible approaches to evaluate the effectiveness of a session Not Yet Democracy Issa G.
