features of this critical societal structure The Encyclopedia of Canadian Social Work fills this need Over five hundred topics important to Canadian social work are covered written by a highly diverse group of social workers covering all aspects of the field and all areas of the country Practitioners policy makers academics social advocates researchers students and administrators present a rich overview of the complexity and diversity of social work and social welfare as it exists in Canada The principal finding from this project underscores the long held perception that there is a Canadian model of social work that is unique and stands as a useful model to other countries The Encyclopedia of Canadian Social Work will be an important source of information both to Canadians and to interested groups around the world The Encyclopedia of Canadian Social Work is available in e book version by subscription or from university and college libraries through the following vendors Canadian Electronic Library Ebrary MyiLibrary and Netlibrary *Brain, School, and Society* Alireza Moula,2017-05-22 This book reports on a research program designed to construct the basics of a new type of literacy that teaches pupils social problem solving at individual and collective levels It is the first of a series of books about a chain of intervention research subprojects started in 2009 teaching pupils basic skills to make well balanced decisions to resolve conflicts in a nonviolent manner and to develop good social relationships and responsibility critical thinking and other abilities which give children and young people the tools needed to pursue their options in life According to the United Nations there is no systematic program in schools that develops these capacities in pupils This volume fills the gap by describing successful classroom interventions and by developing a framework for social problem solving literacy as mandated by the United Nations Child Convention Working Inter-Culturally in Counselling Settings Aisha Dupont-Joshua,2003-09-02 Explores how racial issues can be recognised and worked with in a practical clinical setting looking at how this setting can influence practice
