Alexander, Piotr Sztompka, 2002-09-11 Rethinking Progress provides a challenging reevaluation of one of the crucial ideas of Western civilization the notion of progress Progress often seems to have become self defeating producing ecological deserts overpopulated cities exhausted resources decaying cultures and widespread feelings of alienation The contributors from all over the world present their diversified perspectives on the fate of progress Housing and Planning References United States. Department of Housing and Urban Development. Library, 1975 *The Sociology and Politics of Development* Baidya Nath Varma, 2010-11-26 Originally published in 1980 this work answers the crucial question of how social change should be guided in the developing countries Professor Varma begins by posing the problems of the general scope of modernization and the general criteria used in the modernization process He examines carefully some of the models that have been used for this purpose in the past providing extensive summaries of the views on modernization of theorists in various social science disciplines including sociology politics economics and anthropology and stresses the importance of these views in guiding policy decisions The book concludes with a comparison of the development processes of the United States the Soviet Union China Japan and India The Western Devaluation of Knowledge Charles B. Osburn, 2013-12-05 The Western Devaluation of Knowledge is an exploration of the causes and effects of Western cultural changes that have evolved during the past half millennium of industrialization to diminish the value of knowledge as process Western culture has developed a

conceptualization and valuation of knowledge that reverses the traditional knowledge continuum that connects data information to understanding As a result we displace the subjective and human features of knowledge with automated systems that conforms with information and devalues the knowledge process This book explains this change as a result of the industrial influences that began to gain strength in the 15th century and continued on that path through today s economic and cultural globalization The author shows that science and technology while bringing good on many fronts have also Weakened or replaced traditional sources of cultural authority Advanced a materialistic outlook Hastened the broad spread of capitalist values principles and strategies Fostered a pervasive dependence on technological innovation and Nurtured an extreme rationality Osburn shows that while any one of the above cultural currents would have been sufficient to cause deep and generalized change their confluence was the deciding inspiration for a different epistemology one that has altered the generally accepted meaning and valuation of knowledge

Agents of Discord Anson Shupe, Susan E. Darnell, 2011-12-31 It is widely acknowledged that the United States has always provided fertile ground for the growth of new religious movements and cults but modern organized efforts to oppose and restrict them have been less well understood In *Agents of Discord* Anson Shupe and Susan E Darnell offer a groundbreaking analysis of the operations and motives of these oppositional groups which they generally group under the umbrella term of the anticult movement Historically there have always been parallel groups opposed to certain religious movements whether these be anti Quaker anti Roman Catholic or anti Mormon The authors establish the cultural context of such movements in the nineteenth century They point out the link between modern anticult movements and nativist movements in American history Turning to the postwar era the authors discuss the rise of anticult movements and focus specifically on one of the most prominent the Cult Awareness Network CAN CAN was a two tiered organization Partly composed of volunteers donors and families affected by cult movements it also included what the authors call an inner sanctum of behavioral science professionals attorneys and deprogrammers Using never before reported data on CAN s activities the authors cite an extensive history of financial impropriety that finally led to the organization s bankruptcy They offer a pointed critique informed by current scholarship of the brainwashing model of mental enslavement presented by the anticult movement that has been a central assumption undergirding its activities At the same time they show how increasing professionalization has gradually begun a shift of such movements to a therapeutic model of exit counseling that rejects the crude methods of earlier intervention strategies In their analysis of the anticult movement nationally and internationally Shupe and Darnell merge sociological concepts and social history to make unique sense of a heretofore relatively unexplored phenomenon

Sociology of Underdevelopment Rajendra Pandey, 1976 *Perspectives on the North American Indians* Mark Nagler, 1972-01-01

Annotated Archive of Diffusion References William D. Crano, Suellen Ludwig, Gary W. Selnow, 1981 Welfare in Review , 1964 *Image, Perception, and the Making of U.S.-China Relations* Hongshan Li, 1998-06-25 *Image Perception and the Making of U S China Relations* examines major

events in the history of the relationship between the U S and China to show the development and effects of national images and perceptions These essays expose the effects of ideology as represented through foreign policy and the actions of leaders as well as the role of the media and governments in shaping public opinion and attitudes They show the evolution of the influential forces from the nineteenth century through the twentieth century In each country a small group of people has always controlled these forces by manipulating the power of the media and governments The nature of this situation changed national perceptions as power often moved from one small group to another As a result of manipulating the images and perceptions of each country these biased and untrue views have inevitably led to conflict between the two countries

Tradition Modernization and Globalization Prem Narain Pandey, 2015-01-01 The present volume provides a sequential nexus of Tradition Modernization and Globalization right from the early stages up to present time The continuum of tradition and modernity is delineated clearly in different papers in the wake of modern scientific inventions and technological innovations Some of the very brilliant analyses of the features of tradition modernization and globalization done by the sociologists of international repute and specialized scholars of social sciences have made this book a unique specimen that provides a critical and crosscultural analysis of tradition modernization and global developments with concrete instances in different domains of societies The book is divided in two major parts Part one deals with the historical perspective of tradition and modernization and part two focuses on the emerging features of tradition modernization and globalization and their impacts on different components of economy polity and social structure in the developed societies of Europe and USA

as well as developing societies of Asia Africa and Latin America This book may be an academic stimulant to administrators planners and policymakers of governments and scholars of higher studies as well as scientists and technologists interested in the fields of modernization and overall global development The present volume is the outcome of a joint academic endeavour with Prof S K Srivastava who left for heavenly abode on 12 May 2012 in the mid journey of the publication *The Tragedy of Failure* Tiffiany O. Howard,2010-04-21 This intriguing approach to international conflict seeks to facilitate a dialogue between academics and policymakers on how to better anticipate and prevent state failure subsequent forced migration and the terrorist threat that often results Despite the far reaching implications of state failure little research has been devoted to its consequences Postulating that failed and failing states enable the existence of terrorist organizations The Tragedy of Failure Evaluating State Failure and Its Impact on the Spread of Refugees Terrorism and War bridges that gap Both descriptive and prescriptive the book offers a nuanced examination of the relationship between forced migration state failure and terrorism The author suggests policy strategies that are capable of anticipating the onset of forced migration situations before they develop into crises and presents quantitative forecasting models with the ability to predict the occurrence of state failure and forced migration as much as two years in advance Buoyed by this work and the tools it offers policymakers can focus more closely on the issue of failed states and the movement of refugees and internally displaced persons in the interest of targeting and eliminating dangerous terrorist organizations
