collective bargaining It will be the principal reference point for the practitioners judges and academics concerned with the contract of employment as a legal category both nationally and internationally Social Exclusion Amartya Sen,2000 This paper is being issued to promote discussion of social development issues that influence development and poverty reduction It is generally recognized that poverty has both material and non material dimensions Because of their obvious tangibility many development practitioners find it easier to understand and address the material dimensions of poverty **Conversations and Transformations** Ananta Kumar Giri,2002-01-01 In this intriguing new book Indian social theorist Ananta Kumar Giri issues a stirring call for scholars of contemporary social theory and practice to grapple with late modernity s most pressing social and political issues Giri counterposes Western thought with Indian social theory in a work that ranges across an array of Indian texts and ideas hitherto ignored by Western scholarship Included along with the mainstays of Indian intellectual thought like Gandhi and Sri Aurobindo are lesser known Indian social theorists economists sociologists and essayists who argue for transcendence of self interest social responsibility and political renewal Thoughtfully argued and lucidly written this work offers the reader a genuine transdisciplinary learning experience going beyond European ethnocentrism to make social theory a truly global conversation Handbook of Equality of Opportunity ,2024-07-12 This Handbook provides an authoritative exposition of equality of opportunity It presents the different concepts most commonly associated with equality of opportunity and discusses the many problems dominating the controversies on equality of opportunity at the theoretical policy or practical level The chapters give a concise exposition of the different conceptions and basic concepts of equal opportunities They clarify variables that are part of the algorithm of equal opportunities e g opportunity equality non discrimination fairness responsibility chance and choice excellence qualifications effort talent merit desert inequality and risk The idea of equality of opportunity has traditionally been associated with a set of largely unquestioned ideals and over the last 50 years it has been at the very centre of the major progressive social changes and firmly entrenched in political rhetoric Yet the idea of equality of opportunity is far from unquestionable or unproblematic as the only solid assumption different conceptions have in common is their rejection of fixed social relations but not hierarchy itself Disagreements over the fundamental principles criticism over the inefficiency of policies aiming to ensure equal opportunities and objections to their unfairness all pose questions that current conceptions answer in different ways This Handbook examines a wide variety of questions about issues of motivation procedures genealogy taxonomy and compensation
