

## UNIT 10. SOCIAL MOVEMENTS

---

### Introduction to Social Movements

In January 2011, Egypt erupted in protests against the stifling rule of longtime President Hosni Mubarak. The protests were sparked in part by the revolution in Tunisia, and, in turn, they inspired demonstrations throughout the Middle East in Libya, Syria, and beyond. This wave of protest movements travelled across national borders and seemed to spread like wildfire. There have been countless causes and factors in play in these protests and revolutions, but many have noted the internet-savvy youth of these countries. Some believe that the adoption of social technology—from Facebook pages to cell phone cameras—that helped to organize and document the movement contributed directly to the wave of protests called *Arab Spring*. The combination of deep unrest and disruptive technologies meant these social movements were ready to rise up and seek change.

What do Arab Spring, *Occupy Wall Street*, People for the *Ethical Treatment of Animals* (PETA), the anti-globalization movement, and the *Tea Party* have in common? Not much, you might think. But although they may be left-wing or right-wing, radical or conservative, highly organized or very diffused, they are all examples of social movements.

Social movements are purposeful, organized groups striving to work toward a common goal. These groups might be attempting to create change (*Occupy Wall Street*, Arab Spring), to resist change (anti-globalization movement), or to provide a political voice to those otherwise disenfranchised (civil rights movements). Social movements create social change.

Consider the effect of the 2010 BP oil spill in the *Gulf of Mexico*. This disaster exemplifies how a change in the environment, coupled with the use of technology to fix that change, combined with anti-oil sentiment in social movements and social institutions, led to changes in offshore oil drilling policies. Subsequently, in an effort to support the Gulf Coast's rebuilding efforts, changes occurred. From grassroots marketing campaigns that promote consumption of local seafood to municipal governments needing to coordinate with federal cleanups, organizations develop and shift to meet the changing needs of the society. Just as we saw with the *Deepwater Horizon* oil spill, social movements have, throughout history, influenced societal shifts. Sociology looks at these moments through the lenses of three major perspectives.

The functionalist perspective looks at the big picture, focusing on the way that all aspects of society are integral to the continued health and viability of the whole. A functionalist might focus on why social movements develop, why they continue to exist, and what social purposes they serve. On one hand, social movements emerge when there is a dysfunction in the relationship between systems. The union movement developed in the 19th century when the economy no longer functioned

# Social Movements An Introduction

## **Social Movements An Introduction:**

**Social Movements** Donatella della Porta, Mario Diani, 2009-02-09 Social Movements is a comprehensive introduction and critical analysis of collective action in society today In this new edition the authors have updated all chapters with the most recent scientific literature expanded on topics such as individual motivations new media public policies and governance Draws on research and empirical work across the social sciences to address the key questions in this international field New edition expands on topics such as individual motivations new media public policies and governance Has been redesigned in a more user friendly format Social Movements Donatella della Porta, Mario Diani, 2020-02-03 A new fully revised and updated edition of the leading introduction to social movements and collective action covers a broad range of approaches in the social sciences Now in its third edition Social Movements is the market leading introductory text on collective action in contemporary society The text draws from theory driven systematic empirical research from across the social sciences to address central questions and concepts in the field Sophisticated yet reader friendly chapters offer critical analyses of relevant literature whilst exploring important issues and debates The global political landscape has undergone significant changes in the years since this book's initial publication such as the spread of online protests the resurgence of nationalist and right wing activity global revolts and increased social and economic polarization This thoroughly updated edition offers fresh discussions of recent social movements against austerity from around the world new empirical examples references to recent episodes of contention an expanded comparative approach to social movement theory in the scientific literature and more Positioned at the intersection of sociology and political science this book Presents an empirical and engaging exploration of contemporary social movements Discusses topics such as organizing within social movements eventful protests political opportunities symbolism and identity in collective action and social change Highlights how core mechanisms of collective action operate in different movements past and present Provides a conceptual methodology useful for social science students and researchers alike Highlights how core mechanisms of collective action operate in different movements in the past and present Written by two internationally recognized experts in sociology and political science the third edition of Social Movements An Introduction is an essential course text and a must read for students and scholars of sociology political sociology political science and social movement studies **Social Movements** Donatella Della Porta, 2008

**Social Movements** Rudolf Heberle, 1951 **The Wiley Blackwell Companion to Social Movements** David A. Snow, Sarah A. Soule, Hanspeter Kriesi, Holly J. McCammon, 2018-10-01 The most up to date and thorough compendium of scholarship on social movements This second edition of The Wiley Blackwell Companion to Social Movements features forty original essays from the field With contributions from both established and ascendant scholars the Companion seeks to present current research on social movements in all its diversity It is the most up to date comprehensive volume of social science research on social movements available today The essays address facilitative and constraining contexts and

conditions social movement organizations fields and dynamics strategies and tactics micro structural and social psychological dimensions of participation consequences and outcomes and various thematic intersections including the intersection of social movements and social class gender race and ethnicity religion human rights globalization political extremism and more Offers an illuminating guide to understanding the dynamics and operation of social movements within the modern global world Covers a diverse range of topics in the field of social movement studies Offers original state of the art essays by internationally recognized scholars The Wiley Blackwell Companion to Social Movements is recommended for graduate seminars on social movement and for scholars of social movements worldwide It is also an excellent text for college and university libraries especially with graduate programs in the social sciences

**Encyclopedia of American Social Movements** Immanuel Ness, 2015-07-17 This four volume set examines every social movement in American history from the great struggles for abolition civil rights and women s equality to the more specific quests for prohibition consumer safety unemployment insurance and global justice

**Understanding Social Movements** Greg Martin, 2015-05-01 This book offers a new and fresh approach to understanding social movements It provides interdisciplinary perspectives on social and cultural protest and contentious politics It considers major theories and concepts which are presented in an accessible and engaging format Historical and contemporary case studies and examples from a variety of different countries are provided throughout including the American civil rights movement Greenpeace Pussy Riot indigenous peoples movements liberation theology Occupy Tea Party and the Arab Spring The book presents specific chapters outlining the early origins of social movement studies and more recent theoretical and conceptual developments It considers key ideas from resource mobilization theory the political process model and new social movement approaches It provides an expansive commentary on the role of culture in social protest and looks at substantive areas in chapters dedicated to religious movements geography and struggles over space media and movements and global activism Understanding Social Movements will be a useful resource for undergraduate and postgraduate students across disciplines wanting to be introduced to or extend their knowledge of the field The book will also prove invaluable for lecturers and academic researchers interested in studying social movements

**Global Democracy, Social Movements, And Feminism** Catherine Eschle, 2018-03-08 In Global Democracy Social Movements and Feminism Catherine Eschle examines the relationship between social movements and democracy in social and political thought in the context of debates about the exclusions and mobilizations generated by gender hierarchies and the impact of globalization Eschle considers a range of approaches in social and political thought from long standing liberal republican Marxist and anarchist traditions through post Marxist and post modernist innovations and recent efforts to theorize democracy and social movements at a global level The author turns to feminist theory and movement practices and particularly to black and third world feminist interventions in debates about the democratization of feminism itself Eschle discusses the ways in which such debates are increasingly played out on a global scale as feminists

grapple with the implication of globalization for movement organization The author then concludes with a discussion of the relevance of these feminist debates for the theorization of democracy more generally in an era of global transformation

**Social Movements and Protest Politics** Greg Martin, 2023-12-22 This fully revised and updated edition of *Social Movements and Protest Politics* provides interdisciplinary perspectives on the sociology of protest movements It considers major theories and concepts which are presented in a clear accessible and engaging format The second edition contains new chapters on methods and ethics of social movement research and legal mobilisation protest policing and criminal justice activism including calls to abolish or defund police made at protests during the COVID 19 pandemic This edition introduces readers to the concept of the post protest society wherein the right to protest is whittled away to near vanishing point and authorities have considerable legal recourse to ban protests and render the tactics of protest movements ineffective The book also looks at recent developments and novel social movements including Black Lives Matter Extinction Rebellion Gilets Jaunes MeToo and Hong Kong's Umbrella Movement as well as the rise of contemporary forms of populism in democratic societies The book presents specific chapters outlining the early origins of social movement studies and more recent theoretical and conceptual developments It considers key ideas from resource mobilisation theory the political process model and new social movement approaches It provides extensive commentary on the role of culture in social protest including visual images emotions storytelling music and sport religious movements geography and struggles over space media and movements and global activism Historical and contemporary case studies and examples from a variety of countries are provided throughout including the American civil rights movement Greenpeace Pussy Riot Indigenous peoples movements liberation theology Indignados Occupy Tea Party and Arab Spring Each chapter also contains illustrations and boxed case studies to demonstrate the issues under discussion *Social Movements and Protest Politics* will be an indispensable resource for undergraduate and postgraduate students in the social sciences and humanities wanting to be introduced to or extend their knowledge of the field The book will also prove useful to university teachers and academic researchers activists and practitioners interested in the study of social cultural and political protest

*An Introduction to Sociology* Carl Addington Dawson, Warner Ensign Gettys, 1929 **Social Movements** Philo Melvin Buck, 1951 **Regressive Movements in Times of Emergency** Donatella della Porta, 2023-10-25 Since the very beginning of the COVID 19 pandemic with mass media and social media playing a key role anti vax protests have received sustained attention The first comments often pointed at the heterogeneity of the events whose participants seemed to belong to different milieus from the far right to exoteric groups that opposed mainstream medicine suggesting alternative ones In reality in their forms and claims these protests developed as a regressive response to the health crisis Conspiracist beliefs from the politicized QAnon and Great Replacement conspiracies widespread on the far right to the Chemic Trails and 5G ones present in an exoteric milieu that promoted alternative health practices were clearly expressed in the slogans and symbols used by the protestors In different moments in

different countries the contestation of the anti COVID 19 measures proceeded with peaks and ebbs following the waves of contagion and the related increase in policy measures to curb them Increasing especially during the vaccination campaigns they seemed to subside however quite quickly as the COVID 19 virus started to become endemic with vaccination reducing its lethality This volume builds upon social movement studies in the attempt to illuminate the dynamics of these protests in the various steps of their emergency growth and decline Referring to most recent developments in social movement studies it in particular contributes to the analysis of contentious politics in emergency times characterized by deep disruption in everyday life and rapid structural transformations in the society In order to understand how specific strains are transformed into actions it considers the opportunities and challenges for different actors in moments of intense mobilization in which different and contrasting claims are put forward While these moments are rich in innovation they built upon existing social movement infrastructures that contribute to give meaning to dissatisfaction by proposing a shared definition of problems and solutions Looking at the wave of anti vax protests through the lenses of social movement studies the analysis addresses the spread of the protests their forms but also their quick decline      *Handbook on Youth Activism* Jerusha Conner,2024-02-12 This dynamic Handbook offers state of the art analysis of the new generation of youth activists who are demanding change Bringing together eminent scholars rising academic stars and youth activists this Handbook provides a unique and essential insight into the power of youth activism today      *The Activists' Handbook* Aidan Ricketts,2012-03-08 A priceless resource for everyone ready to make a difference environmental activist Aidan Ricketts offers a step by step handbook for citizens eager to start or get involved in grass roots movements and beyond Providing all essential practical tools methods and strategies needed for a successful campaign and extensively discussing legal and ethical issues this book empowers its readers to effectively promote their cause Lots of ready to use documents and comprehensive information on digital activism and group strategy make this book an essential companion for any campaign Including case studies from the US UK Canada and Australia this is the ultimate guidebook to participatory democracy      **Embers of Activism: Unveiling the Forces of Social Movements** Pasquale De Marco,2025-07-18 In a world grappling with complex social political and environmental challenges social movements have emerged as a powerful force for change This book provides a comprehensive exploration of the dynamics strategies and impact of social movements offering a deeper understanding of their role in shaping our societies Through a captivating narrative and in depth analysis this book delves into the origins of activism examining the factors that drive individuals and groups to mobilize for collective action It explores the cultural contexts that shape social movements the power structures they challenge and the strategies and tactics they employ to achieve their goals The book also sheds light on the challenges that social movements face including repression backlash and co optation It examines the ways in which activists navigate these challenges through negotiation compromise and coalition building demonstrating the resilience and adaptability of social movements in the face of adversity Furthermore this book explores the impact and legacy

of social movements highlighting their contributions to policy change cultural shifts and lasting social transformation It examines the ways in which social movements have shaped our understanding of justice equality and human rights and the ways in which they continue to inspire and mobilize people around the world Whether you are an activist a scholar or simply someone who is interested in the power of collective action this book offers a valuable resource for understanding the complex world of social movements It is a compelling read that provides insights into the dynamics of social change and the role that ordinary people can play in shaping the future of our societies If you like this book write a review      *Wiley Blackwell Companion to Political Theology* William T. Cavanaugh, Peter Manley Scott, 2018-12-07 Offers a comprehensive survey and interpretation of contemporary Christian political theology in a newly revised and expanded edition This book presents the latest thinking on the topic of contemporary Christian political theology with original and constructive essays that represent a range of opinions on various topics With contributions from expert scholars in the field it reflects a broad range of methodologies ecclesial traditions and geographic and social locations and provides a sense of the diversity of political theologies It also addresses the primary resources of the Christian tradition which theologians draw on when constructing political theologies and surveys some of the most important figures and movements in political theology This revised and expanded edition provides the most comprehensive and accessible introduction to this lively and growing area of Christian theology Organized into five sections *Wiley Blackwell Companion to Political Theology Second Edition* addresses the many changes that have occurred over the last 15 years within the field of political theology It features new essays that address social developments and movements such as Anglican Social Thought John Milbank Anabaptist Political Theologies African Political Theologies Postcolonialism Political Economy Technology and Virtuality and Grass roots Movements The book also includes a new essay on the reception of Liberation Theology Offers essays on topics such as the Trinity atonement and eschatology Features contributions from leading voices in the field of political theology Includes all new entries covering fresh developments and movements like the urgency of climate change virtuality and the digital age the economic crisis of 2008 the discourse of religion and violence and new modalities of war Addresses some important social movements from a theological point of view including postmodernism grass roots movements and more Provides both Islamic and Jewish responses to political theology Written for academics and students of political theology *Wiley Blackwell Companion to Political Theology 2nd Edition* is an enlightening read that offers a wide range of authoritative essays from some of the most notable scholars in the field      *Modes of Comparison* Aram A. Yengoyan, 2006 In *Modes of Comparison Theory and Practice* the contributors highlight how theoretical problems have brought forth new ideas on comparison and how comparison has become pivotal in the human sciences Each of the essays questions a number of critical and contemporary issues in history sociology and anthropology as they relate to various ideas of comparison BOOK JACKET      *Theory of Collective Behavior* Neil J. Smelser, 2011-08-21 Modern high quality republication of a sociological and social psychology classic New preface by

the author and extensive new Foreword by MIT's Gary Marx An authorized and quality edition not just scanned and forgotten like most such reprints today this book is part of the Classics of the Social Sciences Series by Quid Pro Books Quality ebook formatting includes linked notes legible tables and active TOC The book's original page numbers from its first printing are embedded for continuity of citations and a class syllabus

**Plowshares** Kristen Tobey, 2016-09-01 In September 1980 eight Catholic activists made their way into a Pennsylvania General Electric plant housing parts for nuclear missiles Evading security guards these activists pounded on missile nose cones with hammers and then covered the cones in their own blood This act of nonviolent resistance was their answer to calls for prophetic witness in the Old Testament They shall beat their swords into plowshares and their spears into pruning hooks Nation shall not take up sword against nation they shall never again know war Plowshares explores the closely interwoven religious and social significance of the group's use of performance to achieve its goals It looks at the group's acts of civil disobedience such as that undertaken at the GE plant in 1980 and the Plowshares behavior at the legal trials that result from these protests Interpreting the Bible as a mandate to enact God's kingdom through political resistance the Plowshares work toward symbolic disarmament with the aim of eradicating nuclear weapons Plowshares activists continue to carry out such divine obediences against facilities where equipment used in the production or deployment of nuclear weapons is manufactured or stored Whether one agrees or disagrees with their actions this volume helps us better understand their motivations logic identity and ultimate goal

Urban Movements in a Globalising World Pierre Hamel, Henri Lustiger-Thaler, Margit Mayer, 2003-09-02 This collection deals with the transformation of urban movements in the new social economic and political environments that the rise of globalisation has brought about
