**Proceedings of the 1996 Northeastern Recreation Research Symposium** Walter F. Kuentzel, 1997

**Managing Visitor Experiences in Nature-based Tourism** Julia N. Albrecht, 2021-03-19 This book focuses on the experiences of tourists visiting nature based destinations exploring current knowledge and providing insights into conceptual issues through the use of empirical evidence from five continents Presented as three topics the contents discuss tourism and naturebased experiences by looking at the role and relevance of nature and the uniqueness of such experiences The book identifies visitor management challenges and provides explanations for the solutions reached The final section takes a more overarching destination management perspective that transcends the tourism product or business level and focuses on destination and generic issues like indicators or marketing implications The book also includes research based case studies which contribute to an overall understanding of the core issues involved in managing visitor experiences in nature based tourism

**Work, Leisure and Well-Being** John T Haworth, 2006-04-19 Although it is now well established that unemployment is detrimental to health and well being most of us assume that a well structured rewarding leisure activity would be preferable to paid work John Haworth challenges these assumptions and shows that the very constriction of work like having to perform a task we wouldn't otherwise choose are often the most rewarding in the end Work Leisure and Well Being reviews the current literature and complements it with the findings of the most recent research to provide a serious and fascinating study of the most important areas of adult life It raises as many questions as it answers for instance if paid work is better than a leisure activity what's the use of looking forward to retirement Work Leisure and Well Being will be of interest not only to psychologists but also to a wide range of professionals involved in social policy and the leisure industry

Adults With Disabilities Paul Retish, Shunit Reiter, 1999-05-01 This book concerns the process of transition that we all make throughout our lifetime and the necessary skills individuals with disabilities need to function outside of school The book illustrates that the problems of transition are not just for persons with disabilities but for everyone Acceptance of differences understanding that our perceptions may not be accurate and the ability to be honest with one another are shown to be key elements in assisting transition

*Applications of Flow in Human Development and Education* Mihaly

Csikszentmihalyi,2014-08-08 The third volume of the collected works of Mihaly Csikszentmihalyi covers his work on the application of flow in areas that go beyond the field of leisure where the concept was first applied Based on his personal experience with schooling and learning as well as that of many others and contrary to what Cicero claimed Csikszentmihalyi arrived at the conclusion that instead of taking pride in making the roots of knowledge as bitter as possible we should try to make them sweeter Just as flow became a popular and useful concept in voluntary activities it could likewise be applied in education with the end result of young people being more likely to continue learning not just because they have to but because they want to This volume brings together a number of articles in which Csikszentmihalyi develops ideas about how to make education and more generally the process of learning to live a good life more enjoyable Since theory is the mother of good practice the first eleven chapters are devoted to theoretical reflections Some are general and explore what it means to be a human being what it means to be a person when we look at life from the perspective of flow Others are more narrowly focused on such topics as consumption education teaching and learning They help laypeople reflect how they can arrange their lives in such a way as to leave a small ecological footprint while getting the most enjoyment The second section of the volume contains a dozen empirical articles on similar topics They deal with the development of identity and self worth with the formation of goals and motivation with loneliness and family life
