Social Revolution:

The Social Revolution in Austria Carlile Aylmer Macartney, 1926 Fascism and Social Revolution R. Palme Dutt, 2009-07-01 Right Wing Social Revolution and Its Discontent: the Dynamics of Genocide Leslie Herzberger, 2006-12-21

The history of the United States in the last thirty years its preoccupation with the Vietnam War and the devastating affects of that war on the psyche of this nation is evidence of a foreign policy tragedy Foreign policy tragedy brings domestic tragedy in its wake The purpose of this study is to work out why the approaches to social revolution and that is what the Vietnam War was about have been wrong on both sides of the ideological spectrum the last thirty years in the U S point out why they were wrong point to where they were wrong and point to the consequences of acting in a society when the perceptions are in certain respects wrong Let me sum up my perception on what went wrong in Vietnam It was a Right wing war fought on Left wing premises It was a war that could not have been won because those who designed it would not or could not win it but were also afraid of losing it It was a war that was wrongly perceived by both sides of the ideological spectrum The Liberal argument was that America tried everything and still lost it The Conservative argument was that it could have been won if the opposition had not tied their hands keeping them from an all out effort that would have been required to win it The war was started in earnest by the Liberals under Kennedy The strategy was to roll up the enemy by hitting on the peasant and through it cut off the leaders Pacification education re education indoctrination and the introduction of self defense techniques to the South Vietnamese peasants was meant to stop the revolution exported from the North in its tracks The U S policy was predicated on the assumption that the peasants really had something to do with the ruling functions of the North Vietnamese revolution after Thermidor that after the onset of Thermidor after the institutionalization of the revolution in Hanoi the revolution was still revolution The Liberal approach has believed that revolution is tantamount to Maos view of it in China peasants all immersed in the revolutionary process as fish in the sea And so you would have to drain the very ocean itself to stop it Our approach to the post revolutionary process is that after the onset of Thermidor in a society revolution is a bunch of terror informed super bureaucrats at the center of a society increasingly cut off from the periphery In a post revolutionary society it is the leaders that matter not the fish in the sea So bombing the small fish into fish soup hell in response as did the West in Vietnam in that war every tree every outhouse every shack and every village until they drop so much ordinance that the entire region is brain dead from defoliants and pockmarks and natural calamities while leaving the center untouched would seem insane Yet that was the policy in Vietnam of America And then nothing happened Nothing happened week after week year after year except that America itself was being driven mad doing the same thing and expecting it to come out different That as the President elect said in 1993 was and is insanity But what choice did they all have The pro war liberal American leadership that designed the war in Vietnam did not dare bomb Hanoi the capitol of North Vietnam for fear of triggering World War III with Red China and with Soviet Russia both of

whose client North Vietnam was So they tied their own hands figuring that by coming through the back door fish in the sea style piece by piece nobody will notice in China and Russia ergo no World War III So they took a strategy that was insane and made a virtue out of its necessity They tied their own hand And then they blamed the opposition for forcing them to fight with their hands tied behind their backs On the other h

An Analysis of Theda Skocpol's States and Social Revolutions Riley Quinn, 2017-07-05 Many people want to understand what revolutions are and especially how they come about from the academics who study them to the states that wish to prevent or in some cases provoke them But it is arguably the US scholar Theda Skocpol who has done most to create a viable model of revolution and States and Social Revolutions is the work in which she sets out her intellectual stall Skocpol

s magnum opus can be considered a classic product of the critical thinking skill of problem solving She assesses several different revolutions those of France Russia and China and asks new productive questions about their causes and outcomes The answers collectively allow her to move beyond existing theories such as the voluntarist school which suggests that revolutionaries have agency and the Marxist school which sees state institutions as nothing more than a front for class interests Skocpol s model assumes that states are autonomous bureaucratic institutions which act in their own interests a fundamental re imagining based on fresh interpretations of the evidence Her analysis extends beyond the causes of revolution to their consequences and her argument that the revolutionary state that survives is the one that successfully implements a far reaching program of reform helps to explain not only why the three revolutions she studied have proved enduringly influential but also why hundreds of others less successful are barely remembered today

Revolutionary Guerrilla Warfare Sam Charles Sarkesian, 1975-01-01 Revolution is a word that causes fear in some exhilaration in others and confusion in most Originally used to describe a restoration it eventually came to mean a sweeping sudden attack on an existing order Human history has borne witness to a variety of national and social revolutions population revolution revolution of ideas technological revolution and revolution in education Simultaneously there has been a proliferation of literature on revolution armed struggle and violence aimed at unseating policies and leadership of governments and societies Revolutionary struggles are more than simply armed internal conflict they involve the essence of the political system The desire to make such phenomena understandable often leads to oversimplification Attempts to encompass their multi dimensional nature on the other hand can become immersed in complexities ambiguities and misinterpretations The perspective of this classic volume available in paperback for the first time is that revolution is here to stay Guerrilla warfare according to Sarkesian is a particularly useful strategy for the weak the frustrated the alienated and seekers of power against existing regimes The collected works in this volume examine the social roots of revolution development of strategy and tactics practice in city and countryside dilemmas of attackers and defenders The actors and thinkers collected and analyzed here range from leading political analysts anthropologists sociologists historians and officials as well as practitioners of guerrilla warfare This core text with primary sources in the area of war revolution and insurgence develops an understanding of revolution traces the growth of guerilla doctrine and studies the specifics of revolutionary and counterrevolutionary guerilla warfare

Nicaragua and Grenada assessing the extent to which each revolution was both institutionalized and consolidated This edition also boasts expanded coverage on Che Guevara's visionary leadership and an all new section that addresses the future of revolution in Latin America and the Caribbean Dr Selbin argues that there is a strong link between organizational leadership and the institutionalization process on the one hand and visionary leadership and the consolidation process on the other Particular attention is given to the ongoing revolutionary process in Nicaragua with an emphasis on the implications and ramifications of the 1990 electoral process A final chapter includes brief analyses of the still unfolding revolutionary processes in El Salvador and Peru **Ideology and Organization in Communist China** Franz Schurmann, 1973

The Revolutionary City Mark R. Beissinger, 2022-04-12 How and why cities have become the predominant sites for revolutionary upheavals in the contemporary world Examining the changing character of revolution around the world *The Revolutionary City* focuses on the impact that the concentration of people power and wealth in cities exercises on revolutionary processes and outcomes Once predominantly an urban and armed affair revolutions in the twentieth century

migrated to the countryside as revolutionaries searched for safety from government repression and discovered the peasantry as a revolutionary force. But at the end of the twentieth century as urban centers grew, revolution returned to the city accompanied by a new urban civic repertoire espousing the containment of predatory government and relying on visibility and the power of numbers rather than arms. Using original data on revolutionary episodes since 1900, public opinion surveys and engaging examples from around the world, Mark Beissinger explores the causes and consequences of the urbanization of revolution in the late twentieth and early twenty-first centuries. Beissinger examines the compact nature of urban revolutions as well as their rampant information problems and heightened uncertainty. He investigates the struggle for control over public space, why revolutionary contention has grown more pacified over time, and how revolutions involving the rapid assembly of hundreds of thousands in central urban spaces lead to diverse ad hoc coalitions that have difficulty producing substantive change. *The Revolutionary City* provides a new understanding of how revolutions happen and what they might look like in the future.

Radicalism and Cultural Dislocation in Ethiopia, 1960-1974 Messay Kebede, 2008. A provocative investigation into the root causes of the Ethiopian political upheavals in the second half of the twentieth century. During the 1960s and early 1970s, a majority of Ethiopian students and intellectuals adopted a Marxist-Leninist ideology with fanatic fervor. The leading force in an uprising against the imperial regime of Emperor Haile Selassie, they played a decisive role in the rise of a Leninist military regime. In this original study, Messay Kebede examines the sociopolitical and cultural factors that contributed to the radicalization of the educated elite in Ethiopia and how this phenomenon contributed to the country's uninterrupted political crises and economic setbacks since the Revolution of 1974. Offering a unique insider's perspective garnered from his direct participation in the student movement, the author emphasizes the role of the Western education system in the progressive radicalization of students and assesses the impact of Western education on traditional cultures. The most comprehensive study of the role of students in modern Ethiopian political history to date, *Radicalism and Cultural Dislocation in Ethiopia 1960-1974* opens the door for discussion and debate on the issue of African modernization and the effects of cultural colonization. Messay Kebede is Professor in the Department of Philosophy at the University of Dayton and is author of *Survival and Modernization: Ethiopia's Enigmatic Present: A Philosophical Discourse* (1999).

Revolution and History Arif Dirlik, 1989-09-18. A fascinating contribution to Marxist historiography and to the history of Marxist historiography. Dirlik's story of the reemergence of the modes of production debate in the early years of the Chinese revolution has much to tell us about that debate itself and not least about its intimate relationship to political practice and revolutionary strategy. Fredric Jameson, Duke University.

In *On Revolutions*, six prominent scholars of revolutions generate a new conversation about revolutions past, present, and future. Integrating insights from diverse fields—civil resistance studies, international relations, social movements, terrorism—the book offers new ways of thinking about

persistent problems in the study of revolution Drawing on a wide range of cases it also provides new theoretical insights offers methodological advice and engages with the ethical issues at the nexus of scholarship and activism The Wars for Asia, 1911-1949 S. C. M. Paine, 2014-10-09 The Wars for Asia 1911 1949 shows that the Western treatment of World War II the Second Sino Japanese War and the Chinese Civil War as separate events misrepresents their overlapping connections and causes The Chinese Civil War precipitated a long regional war between China and Japan that went global in 1941 when the Chinese found themselves fighting a civil war within a regional war within an overarching global war The global war that consumed Western attentions resulted from Japan s peripheral strategy to cut foreign aid to China by attacking Pearl Harbour and Western interests throughout the Pacific in 1941 S C M Paine emphasizes the fears and ambitions of Japan China and Russia and the pivotal decisions that set them on a collision course in the 1920s and 1930s The resulting wars together yielded a viscerally anti Japanese and unified Communist China the still angry rising power of the early twenty first century
