Social Services For Older Persons:

Social Services for Older Persons Albert J. E. Wilson, 1984

Social Work with Older People Ann

McDonald, 2010-03-08 *Social Work with Older People* provides an authoritative and practical guide to working with older people in a range of settings. It addresses the complexities of individual work with older people as well as work with families, groups and the wider community and is not afraid to tackle the challenges as well as opportunities of practice in this area. The book begins by explaining the demographic changes that have led to a greying of the general population. It goes on to discuss the diversity in experiences of ageing across society and the range of issues which confront older people and those who wish to work proactively with them. Clear attention is paid to the processes of assessment, care planning and review with readers encouraged to reflect on developing good practice through case studies and exercises. Although it has a strong practical emphasis, the book also stresses the value of theoretical perspectives with insights from fields such as sociology and psychology woven throughout the book. Clear links are also made to policy guidelines and organizational standards without losing sight of the deeper, often more complex issues that arise when working with older people. *Social Work with Older People* will be essential reading for social work students and practitioners but also for others who are interested in the development of practice with older people as citizens and service users.

Social Work With Older People: Approaches To Person-Centred Practice Hall, Barbara, Scragg, Terry, 2012-03-01 This text fills a gap for an accessible textbook which takes a person-centred approach to working with older people by providing readers with a basic knowledge of policy, legislation, theory and research.

Handbook of International Social Work Lynne M. Healy, Rosemary J. Link, 2012 Global knowledge is increasingly essential for all aspects of social work. Today's professionals respond to concerns including permeable borders, the upheavals of war, displaced workers, natural disasters, international adoption and human trafficking. Everywhere social workers work with service users and colleagues from diverse cultures and countries. Globally relevant concepts such as human rights, development and inclusion offer new perspectives to enhance policy and practice and facilitate the international exchange of ideas. This handbook is the first major reference text to provide a solid foundation of knowledge for students and researchers alike. The extensive collection of 73 chapters confirms the integral and necessary nature of international social work knowledge to all areas of practice, policy and research. Chapters systematically map the key issues, organizations, competencies, training and research needs and ethical guidelines central to international social work practice today, emphasizing the linkages among social work, development and human rights practice. In-depth country case studies and policy examples encourage readers to understand how their practice in social work touches on international issues, regardless of whether the work is done at home or abroad. Representing all regions of the world, a wide range of contributors that are leaders in their fields have put together an exhaustive collection that represents the state of play of international social work today.

Social Work Practice with Older People Rory Lynch, 2013-11-13 Older people are the biggest service

user group for social workers and an increasing proportion of the population In this refreshingly positive and practical textbook Rory Lynch draws on years of practice and teaching experience to show how to achieve best social work practice with older adults He takes a person centred approach which fosters respect by valuing the fact that elderly people have more lived experience than others Exploring the key theoretical approaches and methods of intervention this book helps social workers to identify understand and facilitate their service users wishes for well being and a fulfilling older age Chapters are practice driven containing case studies drawn from a range of care settings reflective questions and exercises Mapping directly onto the key modules on the social work degree this is essential reading for all student social workers especially as they prepare to go on their practice placement It is also valuable reading for qualified social workers Rory Lynch is Lecturer in Social Work at Robert Gordon University

Liang, 2024-06-19 Population aging is a consistent global demographic trend. The growth in both the size and proportion of older adults has threatened the sustainability of health systems in meeting healthcare needs of the population. Countries in the Asia Pacific Region may face even more complex health system challenges due to the diversity in culture, management and leadership styles, composition of health service provision, investment in research infrastructure and innovation, adaptation, data availability and gaps in information technology.
